Communication media

Media: PIT - Product Information Tool - selling points

Target group: smart dealers

Deployment on: Internet

Since January 2003 comprehensive **product information** on the current **smart model range** and **aftersales products** has been available on PIT smart with facts, selling points and advantages.

With PIT we are supporting your sales activities with a smart **extranet solution**.

Access requirements:

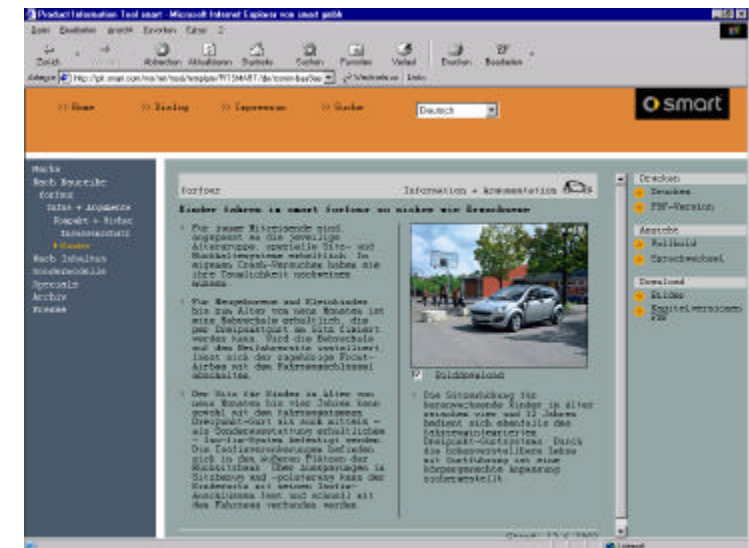

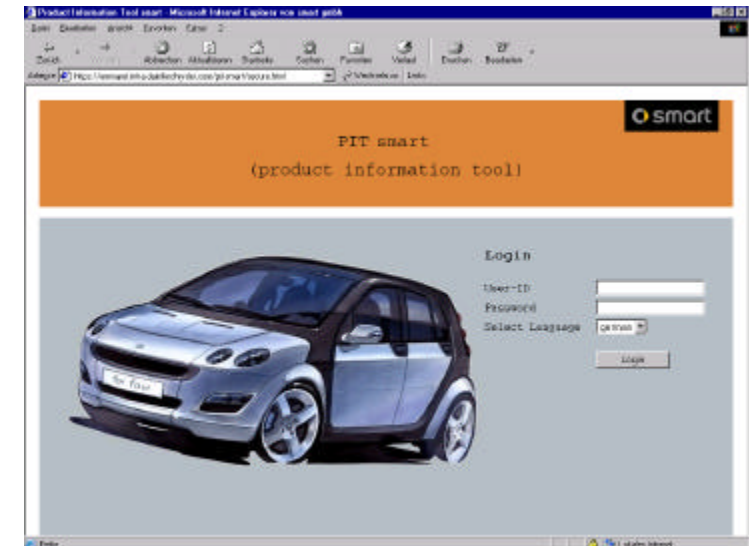

Internet browser e.g. Microsoft Internet Explorer

Link: <http://pit.smart.com>

User ID: Your personal DMS login
(E.g.: "a9904" > a99=Centre, 04=User)

Password: "tridion"

For security reasons the password is changed twice a year.
You will be informed of the new password in an info letter.

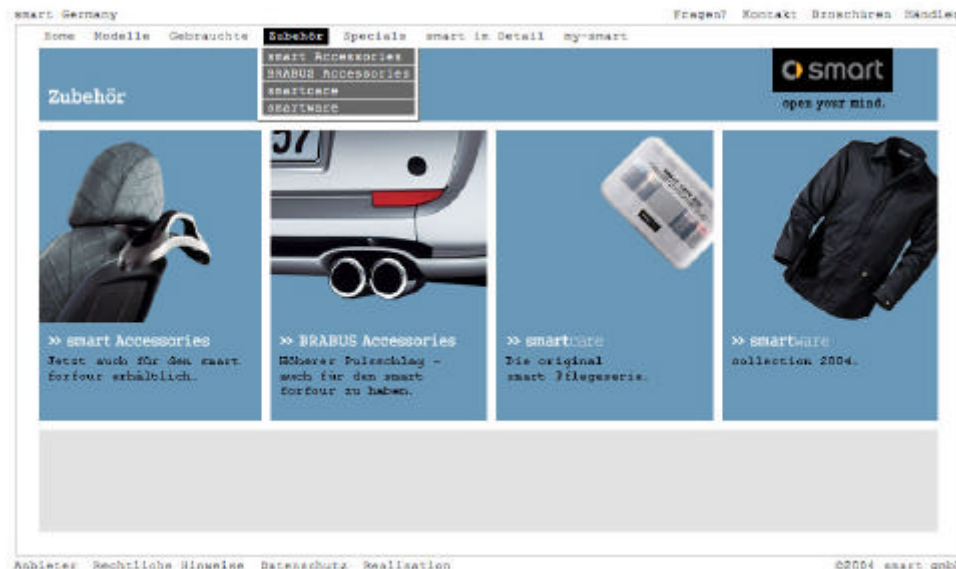

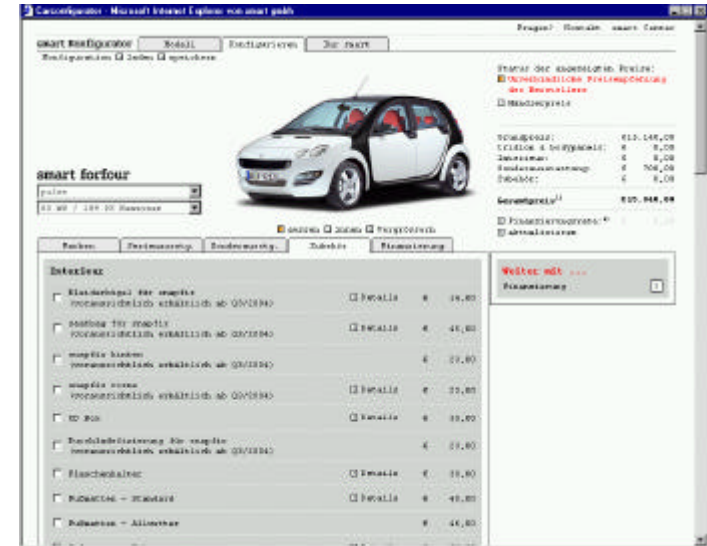

Communication media

Media: smart.com
 Target group: End customers
 Deployment on: Internet - www.smart.com

Since August 2003 our website has contained comprehensive information on **smart aftersales products**, classified according to **smart accessories**, **smart BRABUS accessories**, **smartcare** and **smartware**.

In addition to this, all automotive accessories are an integral part of the internet car configurator.

Function & Telematics

Stationary Heating (Petrol / Diesel) (DF0)

Technology / Design		Customer Benefit			
<ul style="list-style-type: none">▪ The smart stationary heating is supplied with the Telestart T80 remote control as standard which permits convenient operation from a distance of up to 600 m. The stationary heating, type 'Thermo Top C' heats the vehicle's own coolant circuit independently of the engine.▪ The heat is routed directly into the interior of the car whilst simultaneously pre-heating the engine. This not only ensures a pleasant temperature in the vehicle but also defrosts iced-over windows and protects the engine.▪ The stationary heating system is perfectly harmonised with the needs of the smart customer and the size of the smart forfour.▪ Heater output 5.2 kW, max. duration of heating 60 min. adjustable via Telestart, fuel consumption approx. 0.5kg/h.		<ul style="list-style-type: none">▪ Never freeze again – a warm interior right from the start, no cold seats and operating elements. I.e. maximum comfort.▪ Windows always clear – The windows are defrosted when you get in the car – misting up and re-icing over are prevented effectively.▪ Save valuable time – Stationary heating saves the nuisance of scraping. Get into a pleasantly warm car every day.▪ Maximum convenience of operation – Regardless of the demands you make – the smart stationary heating convinces with its ease of operation by remote control.▪ Relieve pressure on the engine and the environment – a preheated engine uses less fuel and produces up to two thirds fewer exhaust emissions in the starting phase. Wear on the engine is also reduced significantly.▪ More safety – the smart stationary heating ensures a clear view and relaxed driving right from the start – thus ensuring faster ability to react.			
Part number: A4548300361 Gasoline A4548300261 Diesel	Code: I60	Compulsory: no	Exclusions: No	Installation: Inst. Time: WIS No.: ASRA No.:	Retailer 326 Minutes AZ83.70-P-0001FF 83-6153

Handsfree Kit (universal) - Basic Kit (DF0)

Technology / Design <ul style="list-style-type: none"> ▪ The handsfree kit (universal) consists of the Basic Kit, a vehicle-specific fitting kit, a radio-specific set of leads (either smart radio five or smart radio six) and one of the various mountings for mobile phones (cradles). ▪ Electronics box for handsfree kit (universal). ▪ Fixing under right hand front seat. ▪ Universal adapter for different telephone cradles ▪ Microphone 		Customer Benefit <ul style="list-style-type: none"> ▪ The handsfree kit (universal) puts an end to talking to yourself and legalises telephoning at the wheel. If you are listening to music it also disables your audio system so that you can give the person you are talking to your full attention. The telephone bracket provided takes a large number of current cradles which are available in your smart Center for current mobile phones – so that your mobile phone does not go on extra excursions whilst the vehicle is in motion.
