>> A great idea for the city.

smart fortwo pure, pulse, passion, smart BRABUS and BRABUS Xclusive.

Life is never as varied as it is in the city. But another feature of city life is its unique mobility requirements. Having a large number of cars in any one place will always lead to heavy traffic and a shortage of parking spaces. In such an environment, it isn't long before conventional cars reach their limitations.

By contrast, a smart fortwo is in its element on city streets: designed for an urban environment, it shows that “thinking big” refers to innovations rather than centimetres. And as a coupé or a cabrio, its unique overall concept proves that city driving can be a pleasure rather than a chore.

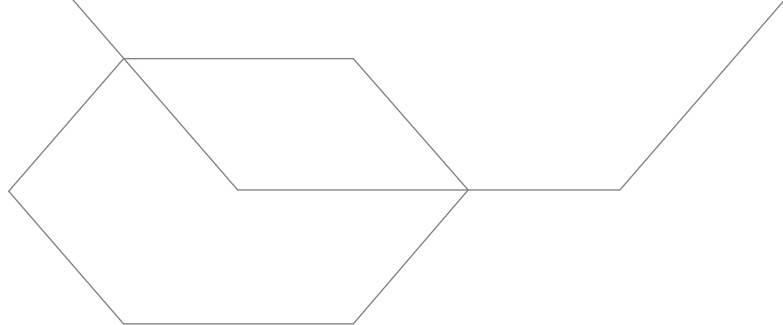

>> Expect the unexpected.

The smart fortwo.

A unique vehicle concept that never fails to catch the eye – even though it has been a familiar sight on city streets for years. The smart fortwo is a wholly unusual car that keeps raising the bar with outstanding functionality. The intelligent design of the smart fortwo makes everyday life easier – from the raised seating position and good all-round visibility to the simple parking and the surprisingly spacious interior. Resulting in easier and more carefree city travel.

The smart fortwo's exceptional everyday functionality is matched by the unique scope for individualisation. With new colours such as jupiter red and brilliant anthracite for the tridion safety cell and flame yellow for the bodypanels, the expanded colour range opens up even more opportunities to mix and match.

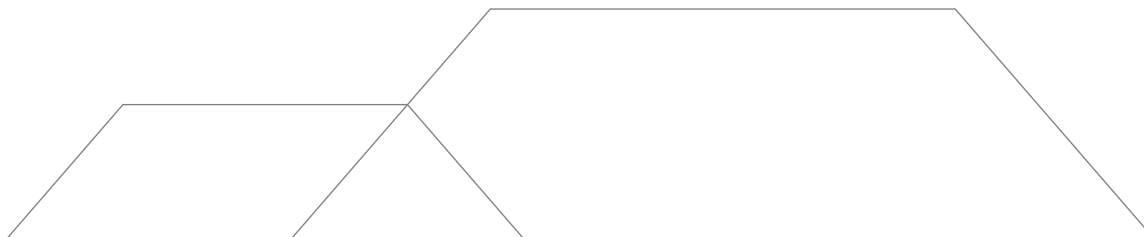

>> Every inch an individualist.

Design that is worth every glance.

It is not just the two-colour concept of the smart fortwo that turns heads wherever it goes. Thanks to a unique construction principle with tridion safety cell and bodypanels, the smart boasts a design that clearly sets it apart from other cars. And that exudes independence and style from every angle – from the honeycomb structure in the radiator grille and the rear heat shield to fine details such as the trim strip at the rear.

>> Looks big, feels great.

A feel-good interior.

A raised seating position, superb all-round visibility and spaciousness that you wouldn't expect in a car of this size: the true greatness of the smart fortwo is revealed when you take a seat.

A prime example of the smart fortwo's feel-good atmosphere is the optional interior material package in crystal grey. The high-quality colour and material composition in the mix of leather and fabric with contrasting double stitching creates a quality feel that is not generally associated with vehicles in this class.

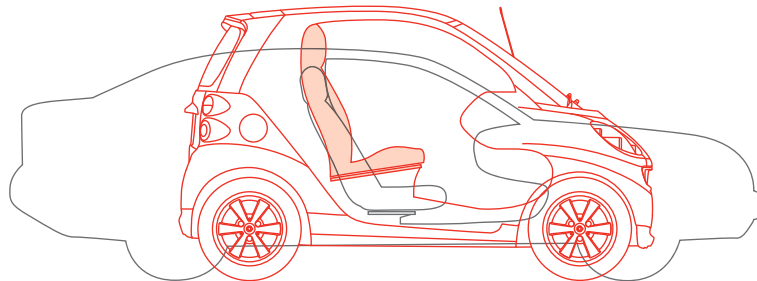

>> Small outside, big inside.

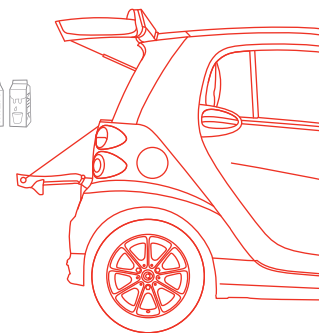

The space concept.

Spaciously smart. With its large cab-forward windscreen and the upright seating position, the smart fortwo interior offers the same feeling of spaciousness as a minivan. Meaning that even taller smart enthusiasts will enjoy the same level of comfort. The raised seating position gives you excellent all-round vision, even in the heaviest traffic. And with a length of 2.69 m the smart fortwo fits into every parking space.

This means no more endless searching for parking spaces – you simply park, giving you more time for other things. For example, an extended shopping spree. Stow your purchases away in the practical full-size luggage compartment – with capacity of 340 litres¹ there's plenty of space.

2.69 m

340 1¹

¹ Up to roof; according to standard DIN 70020-1.

>> Less is more.

The engines.

You can choose between three engines, all of which are perfectly tailored to the smart fortwo and city traffic. They all offer lots of driving fun and low fuel consumption. All smart engines comply with the strict EU5 standard and emit less than 120 g of CO₂ per km. In fact, 80% of all new smart fortwo models worldwide emit less than 100 g/km (combined cycle, softip).

The micro hybrid drive (mhd) is the most efficient petrol engine from smart. The automatic start/stop system sees to it that petrol is only consumed when you are actually moving. And not, for example, when you are waiting at traffic lights.

mhd

- > 45 kW (61 hp)¹ or 52 kW (71 hp)¹
- > Fuel consumption 4.2 l/100 km²
- > CO₂ emission 97 g/km²

Savings as an added bonus:

Thanks to an intelligent automatic start-stop system, the two powerful naturally aspirated petrol engines shut down automatically in stop-and-go urban traffic – and back on again when it's time to move on.

turbo

- > 62 kW (84 hp)¹
- > Fuel consumption 4.9 l/100 km²
- > CO₂ emission 114 g/km²

More power:

This also means more fun at the wheel for you. The smart turbo engine packs a powerful punch – but an environmentally responsible one as well.

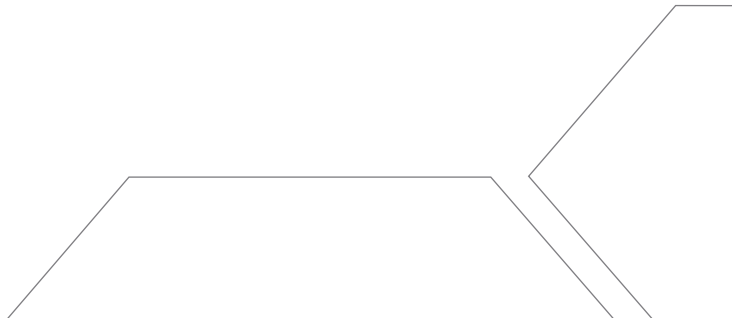

BRABUS

- > 75 kW (102 hp)¹
- > Fuel consumption 5.2 l/100 km²
- > CO₂ emission 119 g/km²

Powerhouse:

The BRABUS turbo engine boasts impressive maximum torque of 147 Nm. In conjunction with sporty transmission configuration it accelerates from 0 to 100 km/h in just 8.9 seconds.

¹In accordance with directive 80/1269/EEC in the currently applicable version. ²Combined figure, coupé, softip. The figures stated were determined in accordance with the stipulated measuring method (directive 80/1268/EEC in its currently valid version). The figures do not refer to an individual vehicle and do not constitute part of the offer, but serve solely as a comparison between the different vehicle types.

>> Safety isn't just about size.

The innovative smart safety concept.

Building a car that is small, compact and comfortable is a challenge in itself. But a small car offering a level of safety that need not shy comparison with a large car calls for an innovative safety concept consisting of numerous individual safety elements that act together for maximum effectiveness. As part of Daimler AG smart benefits from the extensive experience of the safety pioneer Mercedes-Benz.

The tridion safety cell: additionally reinforced with high-strength steel sheets at strategically important points – for maximum stability, rigidity and strength. The impact energy is distributed evenly over the longitudinal and transverse members and so effectively reduced.

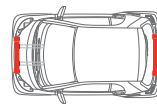

Safety seats with integral seat belts and belt tensioners: the seats have a high level of mechanical stability. In a frontal impact the belt tensioners will reduce any slack.

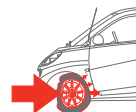

High seat position: not only gives you a better view of what's happening on the road, but also protects you in the event of a collision.

Full-size airbags and optional head/thorax side airbags: open in a matter of milliseconds to offer driver and passenger optimal protection in the event of a front or side impact.

Crash boxes: steel deformation elements at the front and rear absorb the energy from minor collisions at low speeds.

The wheel as a deformation element: in a frontal impact the front wheel absorbs a large part of the force of impact.

esp®: when the vehicle is in danger of swerving, the electronic stability programme (esp®) brakes specific individual wheels in order to prevent the car from breaking away.

abs: as part of the electronic stability programme esp®, the anti-lock braking system (abs) prevents the wheels from locking, enabling you to continue steering the smart fortwo safely whilst applying the brakes.

>> The right model for every need.

The equipment lines and smart BRABUS models.

Every driver has their own personal demands on a car. This is why the smart fortwo is available in three equipment lines plus two BRABUS models. From purist to dynamic, stylish, high-spirited or uncompromising – all models are available as a cabrio or a coupé. On the following pages you'll find all the information you need to help you decide which smart fortwo is best suited to you.

>> Focussing on the essentials.

smart fortwo pure.

Everything you need. From an intelligent space concept to extensive safety equipment – even the basic version of the smart fortwo is hard to top when it comes to urban mobility. Experience the trendsetting smart fortwo concept in its purest form.

The tridion safety cell comes in black as standard, as do the door mirror caps and the radiator grille. The robust steel rims emphasise the highly functional nature of this equipment line.

>1 **Solid roof (coupé):** weatherproof and robust – the sturdy black plastic roof with a textured surface finish.

>2 **Upholstery in black:** hard-wearing, functional and with colour-coordinated fabric elements on the instrument panel.

>3 **2-spoke steering wheel:** non-slip plastic keeps you firmly in control of proceedings at all times.

>> Dynamic response. Sporty look.

smart fortwo pulse.

Confident, lively and agile – the smart fortwo pulse is ready for urban traffic and more. And with its sporty equipment it cuts a fine figure wherever it goes. The tridion safety cell comes in black and is optionally also available in silver, white, jupiter red or brilliant anthracite. The door mirror caps are finished in the same colour. Aprons and side skirts are painted tone-in-tone with the bodypanels for a consistent look whilst the radiator surround in silver provides an eye-catching contrast.

The 3-double-spoke alloy wheels with wide tyres are perfect for sporty motoring. And the softip gear programme – a standard feature – further enhances the sportiness of this model. It enables manual shifting without the need for a clutch – either using the shift paddles on the 3-spoke leather sports steering wheel or by lightly tapping the gear lever.

>1 Dashboard instruments: the cockpit clock and rev counter are illuminated from the inside. They can be swivelled and lend the cockpit even more sportiness.

>2 3-spoke leather sports steering wheel with steering wheel gearshift and leather gear knob: for sporty gear shifting. Shift paddles on the steering wheel allow you to change gear motorsport-style. For even more driving fun.

>3 Panoramic roof (coupé): in break-resistant, tinted polycarbonate. Also comes with an integrated sunblind.

>> Elegant in appearance. Comfort in abundance.

smart fortwo passion.

The smart fortwo passion is perfect for stylish motoring and gives a new meaning to the words “driving style”. The focus is on two things: comfort and elegance. Thanks to the softouch automatic gear programme you can leave gear shifting to the passion. Of course you can change gears manually with softip if you prefer – and the air conditioning with dust and pollen filter will also bring you to your destination in comfort.

The tridion safety cell is available in silver, or alternatively also in black, white, jupiter red or brilliant anthracite. The door mirrors are finished in the same colour. Like the pulse, the bodypanels, aprons and side skirts of the passion are painted in a uniform colour – with the silver surround of the radiator grille as an eye-catching highlight. Classy and expressive 9-spoke alloy wheels round off the elegant appearance.

>1 Upholstery: with three fabric variants in design beige, design black or design red you can choose an interior to suit your taste.

>2 softouch automatic gearshift programme: shifts automatically – for even greater comfort in urban traffic. At the touch of a button you can switch to manual softip mode at any time.

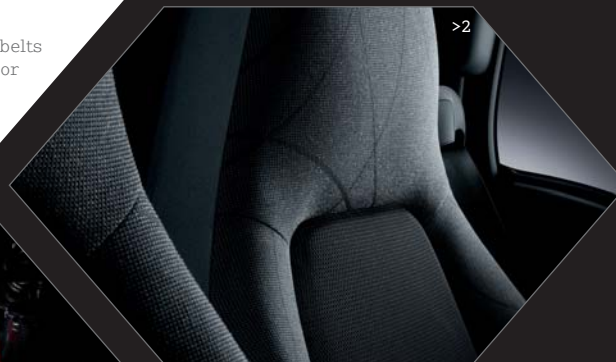

>3 Interior and air conditioning with automatic temperature control (incl. dust and pollen filter): the interior contrast components and fabric elements (on the instrument panel, door trim and knee pad) are colour-coordinated with the upholstery. And the air conditioning with automatic temperature control (incl. dust and pollen filter) ensures a feel-good temperature whatever the weather.

>1 **BRABUS 75 kW (102 hp) turbo engine:** boasts torque of 147 Nm and a maximum speed of 155 km/h (electronically limited).

>2 **Upholstery:** in fabric/design black. The safety seats with integral seat belts offer good lateral support. Fabric elements on the instrument panel, door trim and knee pad are colour-coordinated with the upholstery.

BRABUS

>> Power and understatement. smart BRABUS.

If you're looking for a really dynamic model, then smart BRABUS is the right choice for you. Its 75 kW (102 hp) turbo engine accelerates from 0 to 100 km/h in 8.9 seconds with torque of 147 Nm. The sporty transmission configuration, BRABUS sports suspension lowering the vehicle by 10 mm and the BRABUS sports exhaust system give your smart fortwo all-round sporty driving dynamics and a sporty look. The extremely dynamic appearance is rounded off by BRABUS "Monoblock VII" alloy wheels in the colour variants silver, matt grey and gleaming black.

>1 **Dashboard instruments:** the cockpit clock and rev counter with accent rings in aluminium look can be swivelled and lend the interior even more sportiness.

>2 **BRABUS sports exhaust system with painted rear apron:** stylish appearance with a full sound. With two centrally positioned chrome-plated tail pipes, framed by the BRABUS rear diffuser in matt grey.

BRABUS

>> Uncompromising sportiness. smart BRABUS Xclusive.

smart through and through! Fine materials, exclusive styling and plenty of power: from the dynamic exterior to the high-quality interior and the 75 kW (102 hp) turbo engine, the smart fortwo BRABUS Xclusive leaves nothing to be desired. Exclusiveness has its own style – which is why the bodypanels and tridion safety cell of the smart BRABUS Xclusive harmonise in classy black, gleaming silver or brilliant white.

The BRABUS front spoiler with additional air inlets painted in the bodypanel colour is a hallmark of the BRABUS Xclusive. H7 projection headlamps with titanium-coloured surrounds give the vehicle a dynamic “face”. Together with the LED daytime driving lights in BRABUS Xclusive design they’ll always show you in the right light.

>> At a glance.

Standard equipment of all models.

Exterior

>> A car designed for connoisseurs. Just like you.

The colours.

With a wide range of colours to choose from, you can make your smart fortwo every bit as individual as you are. The bodypanels are available in seven different colours. The typical smart bicolour look is created by the contrasting paintwork of the tridion safety cell. Here, you have a choice of five colours. A total of nine soft top colours are available for the smart fortwo cabrio – three from the smart range and a further six from the smart BRABUS tailor made programme. With the smart fortwo, you really are what you drive.

The bodypanels: in crystal white, rally red, deep black, flame yellow, matt anthracite, light blue metallic or silver metallic.

Soft top colours from smart: tritop soft top available in black or red, or optionally in blue (denim-look).

Soft top colours from the smart BRABUS tailor made programme: for those who are looking for that extra something, the tritop fabric soft top is also available in grey, green, blue, java, beige or brown.

tridion safety cell: available in black, silver, white, jupiter red or brilliant anthracite. With matching door mirror caps.

>> Round off your look.

Wheels.

When it comes to putting together your own personal smart fortwo, you'll find that the wheels also offer you plenty of room to manoeuvre. A whole range of alloy wheels are available to put the finishing touches to your smart fortwo – from classy and elegant to sporty and dynamic. Of course, the choice is not restricted to the design alone – some of the wheels are also available in different colours to perfectly round off the look of your smart fortwo in the true sense of the word.

**Alloy wheels – 38.1 cm (15") with 155/60 R 15
tyres at the front and 175/55 R 15 tyres at the rear:**

- >1** 9-spoke alloy wheels (R25).
- >2** 9-spoke alloy wheels (R78) in crystal white.
- >3** 12-spoke alloy wheels (R72).
- >4** 12-spoke alloy wheels (R24).

**BRABUS alloy wheels – 38.1 cm (15") with 155/60 R 15
tyres at the front and 175/55 R 15 tyres at the rear:**

>11 BRABUS "Monoblock VII" alloy wheels in silver (R61),
gleaming black (R64) or matt grey (R65).

>11

>5

>10

**Alloy wheels – 38.1 cm (15") with 175/55 R 15
tyres at the front and 195/50 R 15 tyres at the
rear:**

>5 3-double-spoke alloy wheels (R92).

>6 3-spoke alloy wheels (R30).

>7 3-double-spoke alloy wheels (R31).

>8 3-double-spoke alloy wheels (R22).

>9 3-double-spoke alloy wheels (R23).

>10 6-spoke alloy wheels (R67).

The smart sports package contains:

- > 5-spoke alloy wheels (R19) 40.6 cm (16") with wide tyres (175/50 R 16 at the front and 215/40 R 16 at the rear)
- > BRABUS sports suspension lowering the vehicle by 10 mm
- > Electric power steering

>> Show your sporty side.

The smart sports package.

The optional smart sports package guarantees an all-round sporty look. With sports suspension, alloy wheels and power steering, you will cut a sporty figure on the roads – with driving performance to match.

>> Flex those muscles.

BRABUS sports package.

The BRABUS sports package will give your smart fortwo a well-trained physique – from the wide tyres and low suspension to the twin tail pipe. Making a lasting impression every time.

The BRABUS sports package contains:

- > BRABUS "Monoblock VII" alloy wheels 40.6 cm/43.2 cm (16"/17") with front tyres 175/50 R 16 and rear tyres 225/35 R 17, incl. wider rear wheel arches. Available in a choice of three colours: silver (R50), gleaming black (R76) or matt grey (R77)
- > BRABUS sports suspension lowering the vehicle by 10 mm
- > BRABUS sports exhaust system (twin tail pipe) with BRABUS rear diffuser in matt grey

>1 Audio system navigation/multimedia: the multimedia system has a 16.5 cm (6.5") touchscreen display, navigation with perspective map display and voice control, Bluetooth hands-free function for your telephone, AUX/USB port for your mobile music player, iPod® interface that allows you to use your iPod on the touchscreen, CD/DVD player, picture viewer, two door loudspeakers and many other functions.

Functions: >2 Radio, >3 CD/DVD player, >4 Navigation.

>> See what you can hear.

A selection from the range of audio & sound options.

The smart fortwo does not just meet the demands of today's and tomorrow's cities, it also fulfils all your personal wishes with top entertainment options. Create your own personal smart fortwo sound experience from a choice of two audio systems and two sound systems.

>1 Audio system basic: with USB and AUX port for your MP3 or CD player, two door loudspeakers and an additional drawer below the operating unit.

>2 Surround sound system: for a whole new full-sound experience. With subwoofer, 8-channel digital amplifier and perfectly matched tweeters, mid-range speakers and rear-fill loudspeakers, your favourite songs have never sounded so good! Compatible with all smart radios.

>> Make more of your smartphone.

The smart drive app 2.0.

One app, a whole host of functions. With the latest version of the smart drive app¹, you can turn your iPhone® into the information and entertainment hub of your smart fortwo. The app not only guides you to your destination every time, but also tells you what the weather will be like, what events are being held nearby and where you can glide straight into a parking space. And with integrated web radio with thousands of stations to choose from, you can be sure of an entertaining soundtrack on the way there as well.

Despite its wide range of functions, the smart drive app is always intuitive and user-friendly – and with everything in your field of vision, you can relax and enjoy the drive. The smart drive kit for the iPhone® is the perfect addition to the smart drive app. Your smartphone has pride of place in a special cradle where it is also charged during the journey.

>1 The smart drive kit for the iPhone®:^{2,3} gives your iPhone® the support and energy it needs. Ideal in combination with the optional smart drive app.

>1 **Navigation:** guides you to your destination every time. You can download international maps free of charge. And you can also plan the route on your PC and transfer it to your smartphone.

>2 **Home screen:** the essentials at a glance: time, weather, date. By clicking once on the smart logo, you can access the menus in the smart drive app 2.0 directly.

>3 **Event Finder:** there's always something happening in the city. And thanks to the Event Finder, you will always know what and where. And, needless to say, the best way to get there.

>4 **Song ID:** like the song that's currently playing on the radio? The smart drive app 2.0 shows you the title and can even connect you directly to the iTunes Store if you so wish.

>5 **Weather:** the smart drive app 2.0 not only tells you what the weather is like at present, but also what it will be like over the next two days.

>Web radio (not shown): with 7000 stations from more than 120 countries, you are spoilt for choice when it comes to music. And with the smart drive app 2.0, you just listen to what you want to.

>Parking (not shown): the smart drive app 2.0 knows almost all car parks and how to get there. And can even tell you whether you will find a space there.

>> The best seats are reserved for you.

To really get to know a car like the smart fortwo, you need to experience it for yourself. And the best way to do that is to take a test drive. Visit your local smart dealer and take a seat in the smart fortwo. Your dealer will be pleased to advise you in the choice of your own personal smart fortwo and will help you choose an engine, colour and equipment variant. And of course your dealer will also be pleased to answer all your questions on financing, leasing and services. Your smart center – we're there to help you.

45 kW (61 hp)
Coupé

Engine/type	3-cylinder in-line engine
Engine capacity in cc	999
Max power in kW (hp) at rpm ¹	45 (61)/5800
Max. torque in Nm at rpm ¹	89/2800
Bore x stroke in mm	72 x 81.8
Compression ratio	11.4 : 1
Fuel delivery	Multipoint fuel injection with electronic accelerator
Maximum speed in km/h	145 ²
Acceleration 0-100 km/h in s	16.8
Engine position/drive	Rear
Transmission	Automated manual 5-speed transmission
Fuel consumption, urban cycle ³	Coupé: 4.5 (softip); 4.6 (softouch)
Fuel consumption, extra-urban cycle ³	Coupé: 3.9 (softip); 4.0 (softouch)
Combined fuel consumption ³	Coupé: 4.2 (softip); 4.3 (softouch)
Fuel type	Premium unleaded ⁵
Exhaust gas purification/exhaust gas standard	3-way catalytic converter/EU5
CO ₂ emissions (combined) in g/km ⁴	Coupé: 97 (softip); 98 (softouch)
Efficiency class (valid for Germany) ⁴	C
Energy efficiency category (valid for Switzerland)	B
Brakes/dynamic handling control system	esp® with hill start assist; abs with electronic brake force distribution; acceleration skid control; electronic brake assist; disc brakes at front, drum brakes at rear
Wheels//tyres – pure (front; rear)	4.5 J x 15//155/60 R 15; 5.5 J x 15//175/55 R 15
Wheels//tyres – pulse (front; rear)	–
Wheels//tyres – passion (front; rear)	–
Wheels//tyres – BRABUS (front; rear)	–
Vehicle length/width/height in mm	2695/1559/1565
Track width (front/rear) in mm ⁶	1283/1385
Wheelbase in mm	1867
Turning circle in m	8.75
Kerb weight (without driver)/safe load in kg	Coupé: 750/270
Permissible total weight kg	1020
Luggage compartment capacity in l ⁸	220–340
Tank capacity/of which reserve in l	33/5
Service interval	40,000 km/2 years ⁹
Warranty in years	2 ¹¹

¹In accordance with directive 80/1269/EEC in the currently applicable version. ²Electronically limited. ³The figures stated were determined in accordance with the stipulated measuring method in accordance with directive 80/1268/EEC in its currently valid version. The data do not relate to an individual vehicle and do not form part of an offer, but are intended solely for the purpose of comparison between the different types of vehicle. In Switzerland: across brands 153 g. ⁴The information provided was determined in accordance with the stipulated measuring method (section 2 no. 5, 6 and 6a of the German fuel efficiency labelling ordinance for passenger cars (Pkw-EnVKV) in its currently valid version). The information does not refer to an individual vehicle but serves solely as a comparison between different vehicle types. The information provided depends on the tyre dimensions. ⁵In Switzerland: Premium unleaded = unleaded 95 RON; super plus unleaded = unleaded 98 RON. ⁶With basic tyres 155/60 R 15 (front) and 175/55 R 15 (rear). ⁷In conjunction with BRABUS sports package: B (Coupé softouch: C). ⁸Up to roof; according to standard DIN 70020-1. ⁹Whichever occurs first. Indicated by maintenance interval indicator. An oil service plus is to be carried out every 20,000 km or once annually. ¹⁰Whichever occurs first. Indicated by maintenance interval indicator. An oil service plus is to be carried out every 15,000 km or once annually. ¹¹In Switzerland: three years (smart swissintegral).

We are pleased to take back your smart for environmentally friendly disposal in accordance with the European Union* (EU) Directive on End-of-Life Vehicles – but that day lies a long way off (*does not apply to Switzerland). To make it as easy as possible for you to return the vehicle, a network of companies exists which will take back your old car and dismantle and recycle it. You can return your vehicle to one of these companies free of charge. In this way you make a valuable contribution to closing the recycling loop and to saving resources. Further information on recycling end-of-life vehicles and the conditions of return is available at www.smart.com.

Regarding the information in this publication: Changes to the product may have been made after going to press on 2 May 2013. The manufacturer reserves the right to effect structural or design modifications, colour changes and changes to the scope of delivery during the delivery period, insofar as such changes or modifications are reasonable for the buyer in due consideration of the seller's interests. Should the seller or the manufacturer employ codes or numbers to describe the order or object ordered, this alone shall not constitute a valid basis for the derivation of any rights. The photographs may include accessories or options that are not part of the standard scope of delivery. Any colour deviations result from the printing process. This publication may also contain variants and services that are not available in individual countries. Information on statutory, legal and fiscal provisions and their consequences apply only to the Federal Republic of Germany at the time that this publication goes to press. Please refer any questions on the provisions that currently apply in other countries and their effects to your smart sales representative.
