After many years of faithful service, you can return your smart to us for environmentally friendly disposal in accordance with the EU Directive on End-Of-Life-Vehicles*. But that day lies a long way off. *Applies in accordance with the relevant national regulations (except in Switzerland). For several years now smart has fulfilled legal requirements for design compatible with the requirements of recycling and reuse. A network of companies exists which will take back your old car and dismantle and recycle it in an environmentally friendly way. Ways of dismantling and recycling cars and parts are being continuously developed and improved, This means that smart will also comply with future increases to the statutory recycling rates in time. Call the smart Infocentre hotline for further information.

Regarding the information in this publication: Changes to the product may have been made after going to press on 01.07.07. The manufacturer reserves the right to effect structural or design modifications, colour changes and changes to the scope of delivery during the delivery period, insofar as such changes or modifications are reasonable for the buyer in due consideration of the seller's interests. Should the seller or the manufacturer employ codes or numbers to describe the order or object ordered, this alone shall not constitute a valid basis for the derivation of any rights. open your mind.

>> The smart fortwo.

>> Mobility begins in the mind.

You'll only find unusual solutions by asking unusual questions. "Open your mind" - question the status quo, take a different angle and risk a fresh approach - these are all essential to discovering new horizons. This is demonstrated by the smart fortwo - an extraordinary vehicle concept for greater mobility in ever denser urban traffic, a concept that simply makes more intelligent use of the ever diminishing space available in our towns and cities.

Does a car need a rear seat bench, when it carries an average of just 1.2. occupants in urban traffic? Isn't a bonnet a waste of space, when the engine can be accommodated at the rear? Is a clutch pedal really necessary, when an automated manual transmission is more suited to urban driving? Is size really a measure of safety, when an innovative safety concept offers optimum protection in a vehicle measuring just 2.69 m in length?

>> When less car means more.

Towns and cities offer a vast array of amenities. But what's the use of having countless shops, restaurants and cafés, if you can't find anywhere to park nearby?

In the smart fortwo you'll soon discover a host of new places to park, because even the smallest parking space is suddenly big enough. At the same time, you'll enjoy an amazing feeling of space inside and a boot that has no problems accommodating your shopping and luggage. In addition, the raised seat position offers a clearer overall view of the traffic situation and makes boarding and alighting from the car particularly comfortable.

Apart from the added comfort, the smart fortwo also provides for more flexible and agile motoring in towns and cities. Getting from A to B is less hassle – and quicker. This is also thanks to the exceptionally tight turning circle of only 8.75 m.

Moreover, the smart fortwo gets by without a clutch – for relaxed motoring, even in the rush hour.

Meanwhile, the fuel gauge shows very little movement. Small wonder, in view of the economical engines and the low overall weight. This lack of ballast is due in part to the bodypanels – body components in high-quality plastic. The particularly light bodypanels contribute to an excellent power/weight ratio, resulting in improved performance and reduced fuel consumption. Above all, they are delightfully robust and scratch-resistant, shrugging off light bumps practically unscathed.

As you can see, there's more to the smart fortwo than meets the eye.

>> Getting more out of life.

In the smart fortwo you'll discover new sides to life every day – and enjoy greater freedom. A smart is even good for other motorists, too because the compact smart fortwo leaves more space for other cars.

The low fuel consumption is kind not only on your wallet but on the environment, too. Low fuel consumption means reduced emissions. And that means a better quality of air for everyone in town. This holds true for every smart fortwo variant. The smart fortwo not only has low fuel consumption, but also low running costs.

After all, there are far nicer things to spend your money on than petrol, taxes or insurance premiums.

So you need have no qualms about popping into town in the smart fortwo on a Saturday – just look forward to a relaxed, hassle-free trip and the luxury of finding a parking space without any fuss.

The surprisingly large luggage compartment is the icing on the cake – offering more than enough space for your weekly shopping or your luggage for a weekend trip.

>> The engines:

Low on consumption, high on performance.

The larger and higher-powered **3-cylinder in-line engines** are fully in keeping with the vehicle concept of the smart fortwo. With a capacity of under one litre, they are extremely compact and space-saving. Their all-aluminium design makes them particularly light. And despite their low fuel consumption and low emissions, they offer impressive technical data that add up to **enhanced agility** and **better performance**.

With 4 valves per cylinder (12-valve engine) and 2 hydraulically adjustable camshafts, the new petrol engines generate plenty of torque even at low revs.

The compact 3-cylinder in-line engines with a capacity of 999 cc come in two variants: A **naturally aspirated engine** rated at 61 bhp or 71 bhp, and a **turbo engine** rated at 84 bhp.

In the BRABUS versions, an even more powerful turbo engine generates an impressive 98 bhp of power.

>> The transmission:

The height of convenience – and fun into the bargain.

The newly developed **automated manual 5-speed transmission** now provides for even faster gear shifting, virtually free of any delays. The smart fortwo also offers two user-friendly options in the form of the **softip manual gear shifting function** and the **softouch automatic gear programme** – both of which do away with the need to use a clutch pedal. This is particularly convenient in town and city traffic. The new transmission also features a **kickdown function** which changes down by one or two gears when appropriate: Simply press the accelerator right down to tap the engine's full power potential.

>> softip.

softip enables you to change gear manually – without using a clutch. A gentle tap on the gearshift lever is all it takes to shift up or down a gear. softip is included in all lines as a standard feature.

>> Steering wheel gearshift.

In softip mode you change gear using the shift paddles on the 3-spoke leather sports steering wheel, without having to take your hands off the wheel. For sportier gear shifting and even more driving fun. Alternatively, you can also use the gearshift lever. Standard in the pulse.

>> softouch.

In addition to softip, the softouch automatic gear programme is also available. This feature is activated at the touch of a button and the shift point is then selected automatically. You still have the option of changing gear manually at any time and switching to softip mode. Standard in the passion.

>> esp®, abs, tridion safety cell... alias your guardian angel.

Active safety systems help you to avoid critical situations. Active accident prevention is intrinsic to the smart fortwo: **The electronic stability programme (esp®)** is a standard feature in every smart. When the vehicle is in danger of swerving, esp® throttles the engine torque and brakes specific individual wheels in order to stabilise the car. **Hydraulic brake assist** makes a decisive contribution to driving safety, too. It automatically initiates controlled emergency braking when you step on the brake pedal quickly but not firmly enough. The **anti-lock braking system (abs)** with **electronic brake force distribution** ensures that you are able to brake and steer simultaneously in critical situations.

There are also numerous **passive safety systems** in the smart fortwo for your all-round protection. First and foremost the **tridion safety cell** and the **crash management system**. Protection is also provided in the event of a head-on collision by two **full-size front airbags**, **belt tensioners** and **belt-force limiters** - and by the **safety steering column**, which is capable of retracting out of harm's way when necessary. Plenty of space has also been left between the car's occupants and the front windscreen, which means that the large interior also serves as a safety element. In case of side-on impact, the **robust door structure** in steel and optional **head/thorax side airbags** afford the necessary protection.

In the front area, deformable plastic body components offer **improved pedestrian protection**. These are provided with thick foam backing in certain areas, in order to minimise the risk of injury in the event of a collision.

As a brand of **DaimlerChrysler**, smart benefits from the **high-calibre expertise and experience of Mercedes-Benz in the field of safety**.

((abs))

((esp))

Despite its compact dimensions, the smart fortwo's crash management system and special design provide for the best possible all-round passive protection.

> 1 **tridion safety cell:**
Sturdy, rigid and tough. The high-strength steel safety cell is additionally reinforced with high-strength steel components at strategically important points to protect the occupants' survival space. At the same time, side and transverse members ensure the even distribution of impact energy.

> 2 **Crash boxes:**
smart has further developed the crumple zone: In minor collisions, the steel deformation elements at the front and rear ensure that the tridion safety cell itself remains undamaged.

> 3 **Sandwich-type construction:**
The raised seat position means that you will generally be positioned above the direct danger zone in the event of a side-on impact.

> 4 **The wheel as a shock absorber:**
The short wheelbase means that the other vehicle involved in a side-on crash will almost always hit the wheel and the suspension components behind. In a head-on collision, the front wheel is supported by the side member, thus absorbing a substantial proportion of the impact energy.

> 5 **Safety seats with integral seat belts:**
The modular sheet steel structure with integrated headrests lends these seats a high level of mechanical stability. In case of impact, belt tensioners reduce any slack in a matter of milliseconds. At the same time, belt-force limiters carefully release the necessary length of belt to avoid exerting too much pressure on the chest.

>> The smart safety concept: Guardian angel on board.

>> The smart fortwo coupé: The smart in its classic guise.

As there's always plenty to look at in the city, the smart fortwo coupé features a large **panoramic roof**¹ made of break-resistant polycarbonate. It lets in the sunshine to provide for a marvellously light and airy interior. Unless you decide to use the **integrated sunblind**, that is. The coupé is also available with a **solid roof**² made of robust plastic – black on the outside and with a textured surface finish.

Another special feature of the smart fortwo coupé is that the **tailgate** and **rear window** can be opened **independently** of one another. Opening the rear window is sufficient to place smaller items in the luggage compartment. It can also be unlocked by **radio remote control**. The additional storage compartment in the tailgate³ helps to keep things neat and tidy in the luggage compartment.

>> The smart fortwo cabrio: Space for two on the sunny side of the street.

When the sun smiles down on you, you can now smile back. The **fully automatic tritop fabric soft top with heated glass rear window** offers a variety of options to suit all weathers – from the **folding soft top that can be opened to any position** to the fully open top for a **full-blown cabrio feeling** – all at the touch of a button. You can also go the whole hog and **remove the roof bars**, which can be neatly stowed away in a special compartment in the tailgate.

The folding soft top in a robust black polyacrylic fabric can even be **opened and closed as you drive along**.

Alternatively, you can open it before you set off, of course – simply by using the **remote control** in the 3-button key. The rear top can be folded up to facilitate loading of the luggage compartment.

The new **scratch-resistant and heated rear window in safety glass** also provides for added comfort and safety, whatever the weather.

>> The standard equipment:

The smart fortwo is brimming over with ideas.

There are many things that make the smart fortwo particularly practical and functional. And most of these solutions are not even apparent at first sight:

Clever technical features such as **automatic hill start assist**, for example. Or the **comfort windscreen wipers** with speed-sensitive interval wiping. **Electrical release of the tailgate** at the push of a button and **indicators with lane changer function**. **Central locking with radio remote control** and the **automated manual 5-speed transmission** with kickdown function.

Other practical features include the **passenger seat backrest which can be folded right down for through-loading**. Or the large **service flap** at the front, which is very convenient for topping up coolant and the water for the windscreen wipers.

It goes without saying that every smart fortwo also comes with a comprehensive range of safety features as standard, including **esp®** and **abs** – **from the basic 61 bhp model to the top model from BRABUS**.

And there’s much more besides:

> 1 **The drive lock function:** When you set off, drive lock activates the central locking system automatically. This means the doors can only be opened from inside, not from outside – for safety’s sake.

> 2 **Central locking with radio remote control and immobiliser:** The doors can be locked and unlocked using the remote control in the 3-button key. The remote control also operates the rear window release (coupé) and roof release (cabrio) functions.

> 3 **Automatic hill start assist:** To ensure you move off safely on upward slopes, the brakes remain engaged for a moment, until you step on the accelerator. This gets you off to a comfortable start and prevents the car from rolling backwards.

> 4 **H7 projection headlights:** These large headlights in clear-glass look provide for bright and uniform illumination.

> 5 **Glass rear window on the cabrio:** Heated rear window in safety glass – for a clear view towards the rear at all times.

> 6 **Service flap:** Easy to remove and attach to the front of the vehicle, e.g. when topping up coolant or windscreen wiper water. The bulb sockets of the H7 projection headlights are also readily accessible.

> 7 **smart radio 9:** RDS radio with CD player and two loudspeakers. smart radio 9 is compatible with the smart BlueTooth hands-free system, the smart sound system and the portable smart navigation system.

> 8 **Multifunctional display:** All key information at a glance – e.g. gear display or fuel gauge. From a level of 5.0 l the remaining fuel is indicated to an accuracy of 0.5 l. Trip recorder, outside temperature, time and service interval indicator can also be called up at the touch of a button.

> 9 **Adjustable, fold-down passenger seat backrest:** To enable you to transport larger and bulky items, the passenger seat backrest can be folded right down into a horizontal position – for through-loading, smart-style.

>> The lines: Spoiling you for choice.

The smart fortwo comes in **three equipment lines** tailored to individual tastes and preferences.

The **pure** – for those seeking functionality and economy. The **pulse** – for those of a sporty disposition. And the **passion** – for those with a penchant for elegance and comfort.

All featuring the complete scope of safety equipment and a host of innovative ideas, of course.

And if you're looking for still more, the wide range of options and accessories from smart and BRABUS provide plenty of additional scope for individualisation.

>> The pure: Focusing on the essentials.

The pure variant of the smart fortwo comes with all the features to make your life easier and more pleasant – functional, comfortable and unmistakably smart.

Starting with the **black tridion safety cell, including door mirrors and radiator grille in black**, with robust steel wheels (15") and solid roof on the coupé or the new, fully automated tritop fabric soft top with heated glass rear window on the cabrio¹.

The focus inside is on practical and functional design – with comfortable and hard-wearing **safety seats with integral seat belts in discreet plain grey**. With matching fabric elements on the instrument panel and **contrast components in pearl grey**. A host of well conceived **storage facilities**, manual window winders and **central locking with remote control**.

The **softip manual gear shifting function** makes easy work of changing gear in the pure.

There is a choice of two engines: a high-torque **petrol engine rated at 71 bhp**, and a **45 kW (61 bhp petrol engine** which is exclusive to the pure coupé – as an attractive entry-level model.

For all its functionality and practicality, the pure also offers an excellent standard of safety, of course – with the **complete scope of safety equipment included as standard**.

All in all, the pure is the perfect and dependable runabout for daily use.

¹ Only available for the pure 71 bhp.

> 1 Upholstery in plain grey: Comfortable, hard-wearing and unobtrusive. With matching fabric elements on the instrument panel.

> 2 2-spoke steering wheel: In non-slip plastic for a particularly good grip. To keep you firmly in control of proceedings at all times.

> 3 Solid roof: The black plastic roof with a textured surface finish is particularly robust.

> 4 Manual window winders: Simple and functional, with a sound winding mechanism.

> 5 Steel wheels (15"): Sturdy and functional. Fitted with 155/60 R 15 tyres at the front and 175/55 R 15 tyres at the rear.

> 6 3-button key: For highly convenient central locking and unlocking of your pure by remote control. Including remote rear window release (coupé) and roof release (cabrio).

> 7 softip manual gear programme: Change gears without a clutch – a gentle tap on the shift lever changes up and down. Including kickdown function.

>> The pulse: Dynamic looks, sporty performance.

Whether you opt for the coupé or cabrio, the smart fortwo pulse is perfect for sporty motoring. The pulse combines driving pleasure with a sporty design.

This is demonstrated by the dynamic **6-spoke alloy wheels (15")** with **wide tyres – 175/55 R 15 at the front and 195/50 R 15 at the rear**, the **front fog lights** integrated in the front apron, the black tridion safety cell – alternatively available in silver, and the large **panoramic roof with integrated sunblind (coupé)**.

The functional and design features inside continue this sporty emphasis with the **dashboard instruments (rev counter and clock)** and the **leather sports steering wheel in 3-spoke design** – including **steering wheel gearshift** and **leather gear knob**.

The safety seats with integral seat belts offer good lateral support – in black with contrasting **backrest in silver-grey**. The **contrast components in pearl grey** and the fabric elements on the instrument panel, door trims and knee pad are colour-coordinated with the upholstery. Not so sporty, but particularly practical: The **electric windows** and the storage compartment in the tailgate (coupé).

A **71 bhp naturally aspirated engine** provides a fittingly dynamic powerhouse for the pulse.

> 1 **Upholstery in black:** Sporty and exclusive to the pulse: The silver-grey fabric insert in the backrest (not available in combination with leather). Fabric elements on instrument panel, door trim and knee pad are colour-coordinated.

> 2 **Dashboard instruments:** The cockpit clock and rev counter lend your pulse an even sportier look. Both are lit from inside and can be swivelled to align them perfectly with your field of vision.

> 3 **3-spoke leather sports steering wheel with steering wheel gearshift:** Change up and down Formula 1 style – without using a clutch at all. This means your hands stay firmly on the wheel – above all when cornering. Including leather gear knob.

> 4 **6-spoke alloy wheels (15") with wide tyres:** Front 175/55 R 15, rear 195/50 R 15.

> 5 **Front fog lights:** Improve visibility in poor weather, and lend the front end of the pulse a sportier appearance into the bargain.

> 6 **Electric windows:** Open and close just as far as you wish – or all the way with automatic raising and lowering function. The passenger window can also be operated from the driver's side.

> 7 **Panoramic roof (coupé):** In break-resistant, tinted polycarbonate. For an even greater feeling of space, more light and sunshine. With integrated interior sunblind.

>> **The passion:** Elegant in appearance. Comfort in abundance.

The smart fortwo passion will be your new passion.

Its elegant appearance sets it apart. With the **tridion safety cell in silver, silver door mirror caps and silver radiator grille.** Rounded off by attractive **12-spoke alloy wheels** (15"). And the finishing touch is provided by the tinted **panoramic roof with sunblind** on the coupé – or the **fully automatic tritop fabric soft top** with heated glass rear window on the cabrio.

The interior of the passion is a marriage of elegance and comfort. It features a **2-spoke leather steering wheel** and **leather gear knob**, comfortable fabric-covered seats in elegant design – **in a choice of beige, red or black. Fabric elements** colour-coordinated with the upholstery are

featured on the instrument panel, door trims and knee pad – and there are contrast components in pearl beige, pearl red or pearl grey.

The **air conditioning with automatic temperature control** and the **electric windows** ensure a pleasant trip every time.

For even greater comfort, the passion additionally features the **softouch automatic gear programme.**

There is a choice of two engines: a turbo engine rated at 84 bhp and a 71 bhp naturally aspirated engine.

The passion is the smart fortwo at its most elegant and comfortable.

> 1 **Upholstery in beige, red or black:** The three colour variants combine to perfection with the colours of the bodypanels. The fabric elements and contrast components are colour-coordinated.

> 2 **2-spoke leather steering wheel and leather gear knob:** Looks good, feels good – the leather steering wheel is a delight to (be)hold. And the same goes for the leather gear knob.

> 3 **Panoramic roof:** Apart from offering a great view, the large tinted panoramic window also lets in more sunlight. In break-resistant polycarbonate. Including interior sunblind.

> 4 **Electric windows:** The automatic raising and lowering function allows you to open and close the windows at a single touch of a button. Or just as far as you wish. The passenger window can also be operated from the driver's side.

> 5 **softouch automatic gear programme:** softouch changes gear for you in the passion – for greater comfort in urban traffic. Should you require, you can switch to manual softip mode at any time.

> 6 **Air conditioning with automatic temperature control:** Simply set the desired temperature on the preset scale – the air conditioning attends to the rest automatically. Including dust and pollen filter.

> 7 **12-spoke alloy wheels (15")** with 155/60 R 15 tyres at the front and 175/55 R 15 tyres at the rear.

> 8 **Door mirror caps and radiator grille in silver:** These harmonise with the tridion safety cell in silver to round off the passion's elegant appearance to perfection.

> 9 **Luggage compartment cover (retractable, incl. net bag):** Protects your luggage from prying eyes and sunlight. Retractable design for easy use. Simple to remove when transporting larger items.

>> smart BRABUS. Sportiness in an exclusive guise.

smart BRABUS GmbH is a joint venture between smart and BRABUS that stands for **the ultimate in automotive enhancement**. The BRABUS engineers and designers essentially focus on two main areas of work:

Firstly, **enhancing performance**. Apart from a **turbo engine generating 98 bhp of power** that enables acceleration from 0 to 62 mph in 9.9 seconds, this also entails **sportier transmission tuning, chassis and suspension components** developed specifically for the smart, large alloy wheels and effective **aerodynamic elements**. Everything is tailored to the smart and perfectly coordinated – for even sportier dynamic performance.

The second focus is on **enhancing the appearance** of smart vehicles. With **exclusive design elements in high-quality materials** such as leather, brushed aluminium and stainless steel, **crafted with precision** and **finished in first-class workmanship**, quality that shines through in points of detail and in the overall appearance of every smart BRABUS – making every smart BRABUS a true **feast for all the senses**.

Discover the BRABUS experience for yourself – in the **smart fortwo BRABUS**.

>> The smart BRABUS: smart at its unparalleled best.

The smart fortwo BRABUS¹ lives up to its name. In every respect.

It doesn't just boast a **98 bhp turbo engine** from BRABUS; the dynamic **BRABUS styling kit** comprising the imposing **front spoiler** with enlarged air inlets, the striking **rear apron** painted in the same colour as the body with the **BRABUS sports exhaust system**, and the **painted side skirts** leave no doubt as to its performance potential. There are also H7 projection headlights with titanium-coloured background. And the **BRABUS "Monoblock VI" alloy wheels** fitted with a tyre mix of 175/50 R 16 at front and 225/35 R 17 at rear, including **BRABUS sports suspension**.

The interior is also a real eye-opener for all those who set great store by quality materials, workmanship and design. Sporty, comfortable and exclusive. The **leather seats – with heating and head/thorax side airbags** – from BRABUS' in-house upholstery department really are the pinnacle of seated luxury. Sitting pretty, you can take in the tailor-made details: For example the **leather-effect instrument panel** with painted **contrast components in aluminium look**. The exclusive **BRABUS leather sports steering wheel with shift paddles**. The stainless steel **sports pedals**. The **handbrake handle** in matt aluminium. The floor mats in **exclusive velour**.

Once you've taken your seat in the smart BRABUS, you'll never want to get out again.

> 1 **BRABUS heated leather seats:** The seats with integral seat belts featuring stylish stitchwork offer the ultimate in seated comfort – in fine leather, sumptuously padded and with plenty of lateral support.

> 2 **BRABUS instrument panel:** In leather look with contrasting decorative stitching. The speedometer and dashboard instruments additionally feature BRABUS dials.

> 3 **BRABUS door trim and door pocket in leather look:** Harmonise perfectly with the BRABUS leather seats and the BRABUS instrument panel.

> 4 **BRABUS velour floor mats:** In black, high-quality velour and featuring an embroidered BRABUS logo, they fit perfectly into the interior design of the BRABUS.

> 5 **BRABUS 3-spoke leather sports steering wheel with shift paddles:** Exclusive, sporty and compact design. Ergonomically shaped and covered in perforated leather, the sports steering wheel provides a pleasant and firm grip.

> 6 **BRABUS sports pedals:** The pedals in matt stainless steel have a sporty look. With anti-slip rubber nubs.

> 7 **BRABUS filler cap:** Proudly bearing the brand logo – in brilliant black finish.

> 8 **H7 projection headlights:** Clear-glass headlights featuring a titanium-coloured background provide for a more aggressive look.

> 9 **BRABUS side skirts:** Add a sporty touch and emphasize the styling along the sides of the vehicle. Painted in the car's exterior colour.

> 10 **BRABUS sports exhaust system with painted rear apron:** Stylish appearance, full sound. With two centrally positioned chrome-plated tail pipes, framed by the BRABUS rear apron, painted in the car's exterior colour.

> 11 **BRABUS front spoiler with additional air inlets:** Powerful and striking – the hallmark of the BRABUS. Painted in the car's exterior colour.

>> Optional equipment: For a smart of your very own making.

Have you found the equipment line best suited to your needs and wishes? With **factory-fitted options** you can further individualise your smart fortwo.

On the inside, for example: With **leather seats** and **heated seats**, the **ISOFIX child seat fastener** with manual airbag deactivation or the **3-spoke leather sports steering wheel** featuring integrated gearshift.

And on the outside: With the **9-spoke alloy wheels**, **front fog lights** or the large **panoramic roof**.

Or with additional features for even greater comfort: Electric, speed-sensitive **power steering**, the audio package, the **smart sound system** with MP3 interface, the **anti-theft alarm system** and much more besides.

> 1 **9-spoke alloy wheels (15")** with 155/60 R 15 tyres at the front and 175/55 R 15 at the rear.

> 2 **Leather heated seats:** These pleasant, hard-wearing seats in high-quality leather offer premium seated comfort.

> 3 **Cockpit clock and rev counter:** These signature smart dashboard instruments are a must for every smart fan. Both can be swivelled as required for clear reading from the driver's and passenger's side. Standard in the pulse.

> 4 **smart radio 10:** RDS radio with 6-disc CD changer for hours of audio pleasure – MP3-compatible and with 2 loudspeakers. smart radio 10 is compatible with the smart BlueTooth hands-free system, the smart sound system and the portable smart navigation system.

> **smart sound system (not shown):** With 2 tweeters, 2 mid-range speakers and subwoofer. Incl. MP3 interface. The ideal set-up for all smart radios.

> 5 **Portable smart navigation system:** Large touchscreen colour display with 2D and 3D map representation. Voice instructions are given via the vehicle's loudspeakers; including muting of the radio/CD player during the instructions.

> 6 **Head/thorax side airbags:** Side airbags to protect the head and chest area to supplement the front airbags which come as standard for the driver and passenger.

> 7 **Lockable glove compartment:** The spacious glove compartment replaces the open storage compartment on the passenger side. Small items and valuables can be stowed away securely and out of sight.

> 8 **Luggage compartment cover (retractable, incl. net bag):** Protects your luggage from prying eyes. Retractable design for easy use. Simple to remove when transporting larger items. Standard in the passion.

> 9 **Electrically adjustable and heated door mirrors:** Both door mirrors are simple and convenient to adjust from the driver's side – and the heating quickly banishes ice and condensation.

> 10 **Air conditioning with automatic temperature control:** Cool down in next to no time – just set the desired temperature on the preset scale. The air conditioning attends to the rest. Including dust and pollen filter. Standard in the passion.

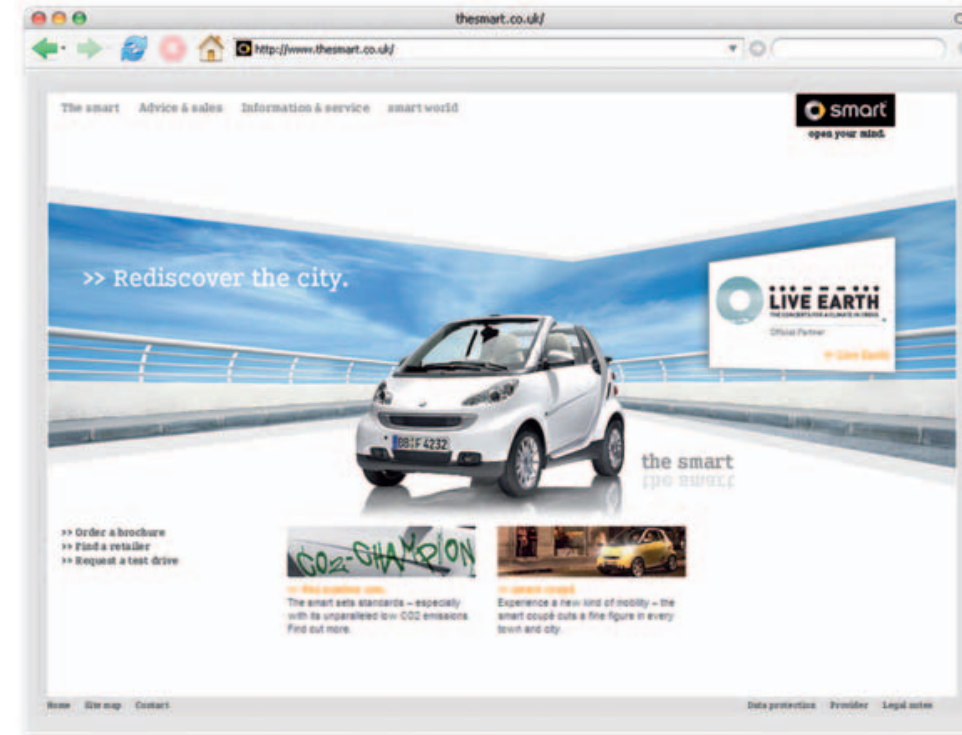

> 11 **Heated seats:** Pleasantly warm seats, with a choice of 2 heating levels. The seat surfaces are heated up to the side supports, the backrests up to the shoulder area.

>> www.thesmart.co.uk: Open around the clock.

Whatever you're looking for, at www.thesmart.co.uk you'll find the whole world of smart at a glance.

The **smart configurator** allows you to put together the smart fortwo that's best suited to you. You can also locate your nearest **smart retailer** and keep up to date on the latest developments and campaigns at smart.

At www.thesmart.co.uk you can always be sure you are right up to the minute with the latest news on smart and the smart fortwo.

>> The bodypanels: Brighten up your life.

The **two-colour design** makes it immediately obvious that the smart fortwo is no ordinary car. It's all down to the **unique combination of the tridion safety cell and the bodypanels** – the body components produced in high-quality plastic. These allow you to **combine** the colours of your smart **to your heart's content** – or even to opt for a complete change of colour scheme.

And in the event of damage, individual bodypanels can simply be replaced. This is quicker and much less expensive than the procedure for conventional cars, which entails replacing and repainting an entire wing.

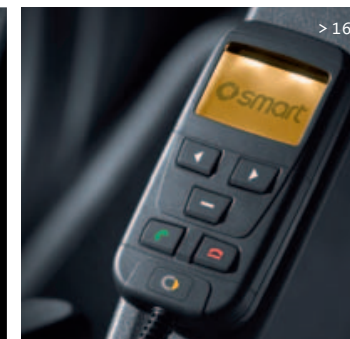

Exchanging bodypanels

>> The smart accessories range: Broadening your smart horizons.

Our extensive range of accessories enables you to make even more of your smart fortwo.

With a host of innovative and practical solutions for the interior, exterior, functional/electrical equipment, audio and telematics, driving dynamics and safety. The possibilities are virtually boundless. And everything is **tailored perfectly to your smart fortwo in terms of design, functionality and quality.**

A small selection is presented here. The entire programme can be found in the **"Accessories for the smart"** catalogue – and **at your smart retailer**, of course.

> 1 **The chrome:** Small details that make a big difference: The highly polished chrome door mirror caps, radiator grille and tailgate trim immediately lend your smart a more elegant appearance.

> 2 **Fog light rings:** For that special shine – even when the skies are clear. The fog light rings round off your smart fortwo's appearance to perfection in combination with the chrome package.

> 3 **smart design stickers:** Black or silver, horizontal or vertical, one or several numbers – when it comes to making your smart even more individual, the choice is yours. Easy to apply, non-fading and car-wash proof.

> 4 **5-spoke alloy wheels (16")¹:** For tyre size 175/50 R 16 (front) and 215/40 R 16 (rear).

> 5 **6-spoke alloy wheels (15", in chrome look)¹:** For tyre size 175/55 R 15 (front) and 195/50 R 15 (rear). Optionally available in titanium silver (not shown).

> 6 **Basic rack:** The ideal and safe platform for various rack systems (e.g. bicycle rack, snowboard rack). The rear window can be opened even when the rack is loaded. Photo: Basic rack plus bicycle rack; both available separately.

> 7 **Luggage compartment management system:** The order of the day. The flexible cargo system with slot-in sections enables the luggage compartment to be partitioned as required. Shopping can also be secured in place using an elastic strap and a shopping (trolley) bag.

> 8 **Protective divider plus:** The clever 2-in-1 solution offers flexibility and safety. Thanks to the safety net with integrated luggage compartment cover, you can always make the most of the luggage compartment.

> 9 **safety plus package:** Simply practical: In addition to an emergency jacket, first-aid kit and warning triangle, the package also includes a torch, ice scraper, replacement lamp box and smart umbrella. Everything is cleverly and compactly integrated in the tailgate – no space goes to waste.

> 10 **Wind deflector:** Prevents strong air flows throughout the interior, protecting you from too much wind when driving with an open top (cabrio).

> 11 **Net set for luggage compartment:** The quick solution for safely stowing away loose items. Comprising one net each for the floor and side of the luggage compartment.

> 12 **CD holder:** Safe storage of up to six CDs. Simply unclip it and you can take your CDs with you wherever you go.

> 13 **Drinks holder:** Securely holds cups, cans and bottles of various sizes.

> 14 **Spectacles compartment:** Ample room for almost all types of glasses – within easy reach of the driver. The compartment has a magnetic closure to prevent glasses from falling out.

> 15 **Bag set for storage compartments:** A cockpit bag for the passenger side with direct access to the smart MP3 interface. The carrying strap allows you to take the bag with you when you leave the car. MinMax bag for the storage compartment on the driver's side – unfolds to become a spacious shopping bag.

> 16 **smart BlueTooth hands-free system:** The BlueTooth adapter provides for a wireless connection between mobile phone and hands-free system, doing away with the need to constantly plug and unplug your phone. Voice output via the vehicle's loudspeakers, including automatic radio mute function.

¹ Prerequisite: smart BRABUS sports suspension.

>> The smart collection: Accessories for smart drivers.

smart is more than just a car. smart also stands for a special take on life. The smart collection means **design, functionality** and **quality** throughout your day. The **stylish writing implements** feature signature smart elements such as the **two-colour design** and the characteristic silhouette, while the **smart bags** demonstrate practical convenience and the **textiles** showcase smart design.

> 1 **High-quality writing instruments** in painted and chrome-plated brass. Fountain pen or ball-point pen.

> 2 **White courier bag** in lorry tarpaulin with smart logo and "hands" motif; black shoulder strap made from car seatbelts.

> 3 **Key fob** with snap link, in soft rubber which has been moulded to form a 3D smart logo, with nylon strap and split ring.

> 4 **Pilot sunglasses** in nickel-free metal, arms with spring-hinge for a perfect fit, dark-tinted, scratch-resistant polycarbonate lenses with 100 % UV-A/B protection.

> 5 **Sweat jacket** in fashionable cut, red with white piping along the zip, "hands" motif on the right shoulder, smart logo printed on the left sleeve; made from 100 % combed cotton.

>> The accessories programme from BRABUS: That certain something.

BRABUS accessories are a treat for every smart and every driver. **High-quality materials and stylish design** lend the exterior an even more dynamic look, from the front spoiler through the side skirts to the sports exhaust system. And the BRABUS accessories allow you to decide just how **sporty and exclusive** your smart should be on the inside, too. Leather, aluminium, velour – everything you see, everything you touch exudes signature BRABUS design and first-class workmanship. Your smart becomes your very own dream car.

Treat yourself and your smart to accessories from BRABUS. A selection of these exclusive extras can be found here.

> 1 **BRABUS design sticker for the filler cap:** The beauty's in the detail: In brilliant black finish, sporting the BRABUS logo – the silver double B.

> 2 **smart BRABUS sports exhaust system:** Two 76 mm chrome-plated tail pipes provide for the typical BRABUS look at the rear, too – and the full BRABUS sound. Can only be fitted in conjunction with the BRABUS rear apron. Incl. catalytic converter for 71 bhp or 84 bhp.

petrol engine. Photo with BRABUS rear apron (can be painted in car's exterior colour or in black grained finish); available separately.

> 3 **BRABUS "Monoblock A" alloy wheels (16"):** The sturdy 6-spoke rim comes in silver with large BRABUS lettering. For tyre size 175/50 R 16 (front) and 215/40 R 16 (rear).

> 4 **BRABUS gear knob:** In matt aluminium with leather appliqué. Looks better, feels better – typically BRABUS.

> 5 **BRABUS handbrake handle:** In matt aluminium. Teams up with the leather effect sleeve to produce a sportier look.

> 6 **BRABUS "Monoblock VI" alloy wheels (16"):** The elegant silver six double-spoke rim is silver-polished. For tyres in size 175/50 R 16 (front) and 225/40 R 16 (rear), incl. wider rear wheel arches.

> 7 **BRABUS side skirts:** Tailored perfectly to the BRABUS styling, these side skirts add a sporty touch and emphasize the dynamic side contours of the smart fortwo. Can be painted in all body colours.

> 8 **BRABUS front spoiler:** Lends the smart fortwo a more dynamic appearance and improved driving properties by reducing the front axle lift force. Perfectly tailored to smart styling, the front spoiler can be painted in all bodypanel colours.

>> Your smart retailer: Always at your service.

To really get to know a car like the smart fortwo, you need to experience it at first hand. How about a test drive? Visit your smart retailer, take a seat and find out all you wish to know about the smart fortwo, the equipment and the extensive accessories programme.

Of course, we will also be pleased to answer all your questions on financing, leasing and the extensive range of smart services. Your smart retailer – we're there to help you.

>> Leasing & financing: Individual motoring, individual financing.

We're not just accommodating and flexible in helping you to put together your own personal smart – we adopt the same approach when it comes to financing.

You can choose the alternative best suited to your needs from a range of attractive leasing, financing and insurance packages offered by DaimlerChrysler Financial Services.

Regardless of which financing option you choose, one thing remains the same: The security and reliability of a strong partner on whom you can depend at all times.

>> smart servicing: tlc for your smart.

Keeping your smart running like new is easy with our simple servicing concept. Our retailers are trained to give your smart the attention it deserves, using the latest diagnostic equipment in our state-of-the-art facilities. Keep your smart a smart by always fitting smart genuine parts, designed to fit perfectly.

smart servicing – the new, customer friendly service concept. Maximum care, minimum costs – thanks to our dedicated retailers and long service intervals.

The 71 bhp engine smart only requires a service every two years or 25,000 miles, with an oil change – oil service plus – in between at one year or 12,500 miles. The 84 bhp smart has a slightly shorter interval of two years or 20,000 miles.

smart warranty – for two years and unlimited miles, your smart is protected by our comprehensive warranty.

smartmove assistance provides free, speedy and straightforward breakdown assistance around the clock in the first two years.

smart service contract.

If you want us to take all the hassle of servicing your smart away from you, a smart service contract is the perfect solution. Offering you two choices of package and pricing to match your driving habits, it means your smart service contract is unique to you and your smart.

smart service – covers all your servicing costs, including the oil changes and, when your car reaches 3 years old, your MOT test fee is paid for too.

smart service plus – of course this includes everything in smart service, but also all your wear and tear repairs too – meaning no more unexpected bills for you.

For a personalised quotation, contact your local retailer.

¹In accordance with directive 80/1269/EEC in the currently applicable version. ²Limited. ³The figures stated were determined in accordance with the stipulated measuring method (directive 80/1268/EEC in its currently valid version). The data do not relate to an individual vehicle and do not form part of an offer, but are intended solely for the purpose of comparison between different types of vehicle. The figures stated depend on the tyre dimensions.

⁴Up to roof. ⁵Whichever occurs first. Indicated by service interval indicator. An oil service plus is to be carried out every 20,000 km or once annually. ⁶Whichever occurs first. Indicated by service interval indicator. An oil service plus is to be carried out every 15,000 km or once annually.

>> Standard equipment and equipment lines.

Safety:

esp® – electronic stability programme
with hill start assist
Anti-lock braking system (abs)
with electronic brake force distribution
Full-size driver and passenger airbag
tridion safety cell
Safety seats with integral seat belts
Seat belts with belt tensioners and belt force limiters
Hydraulic dual-circuit brake system
with servo assistance
Hydraulic brake assist
Crash elements at front and rear
Crash sensor
(auto switch-on of hazard warning lights)
drive lock – automatic door locking when driving

Exterior:

bodypanels in deep black, light yellow
or crystal white
H7 projection headlights
White side indicators
Door mirror caps in tridion colour
Third brake light

Interior:

Passenger seat backrest can be folded right down
for through-loading
Storage compartments on passenger side,
next to the steering wheel and in the doors
Storage compartment in tailgate
(not available for 61 bph model)
Coin holder (coupé)
Interior lighting
Make-up mirror in passenger sun visor

Functional/electrical equipment:

Automated manual 5-speed transmission
with kickdown function
smart radio 9 (RDS radio, CD player,
incl. 2 loudspeakers)
Central locking with radio remote control
and immobiliser
Instrument cluster with multifunctional display
(digital gear display, fuel gauge with reserve
indicator, coolant display, service interval indicator,
trip recorder, clock)
Exterior temperature indicator with frost warning
Indicators with lanechanger function
Comfort windscreen wipers with speed-sensitive
interval wiping and automatic wipe/wash function
Rear window wiper with interval wiping and automatic
wipe/wash function (coupé)
Headlamp range adjustment (manual)
Heated rear window
Electric tailgate release
Rear window release (coupé) or remote roof release
(cabrio) via 3-button key
Tank cap integrated in the central locking system
12 volt socket

pure

Solid roof
softip – manual gear shifting (shift lever)
