

open your mind.

>> A great idea for the city.

smart fortwo pulse, passion and BRABUS Xclusive.

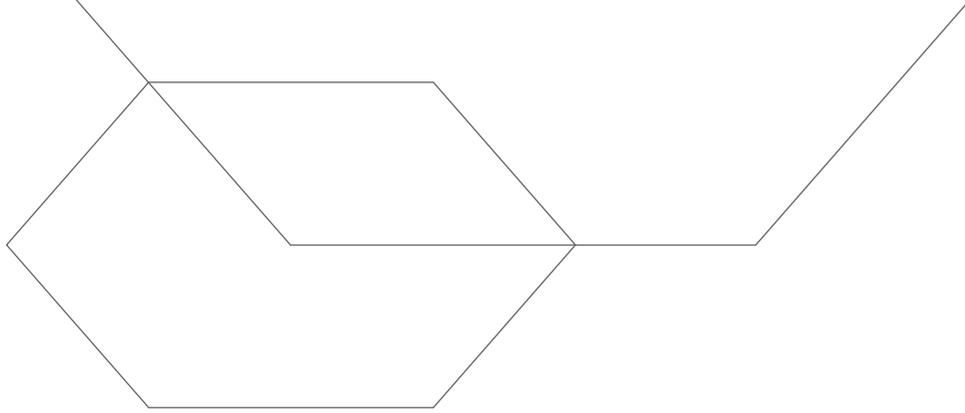

Life is never as varied as it is in the city. But another feature of **city life** is its **unique mobility requirements**. Having a large number of cars in any one place will always lead to **heavy traffic and a shortage of parking spaces**. In such an environment, it isn't long before conventional cars reach their limitations. **By contrast, a smart fortwo is in its element on city streets:**

designed for an urban environment, it shows that “thinking big” refers to innovations rather than centimetres. And, thanks to its unique overall concept, it proves that city traffic can be a pleasure rather than a problem. With its dynamic and confident look the smart fortwo is ready and raring to go.

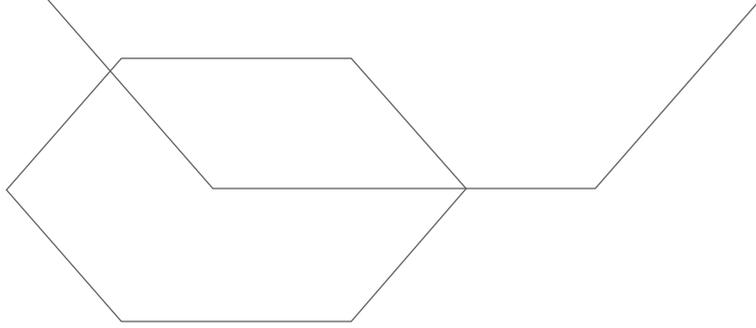

**>> As unmistakable as ever
and now even more expressive.**

The new-look smart fortwo is sportier than ever. Its extra-wide air inlets and special honeycomb structure lend striking contours to the new smart face. The smart logo now takes pride of place in the redesigned radiator grille. Body panels in the new colour, matt anthracite, take the spotlight with the confidence of a car that was made for the city.

>> A whole new character.

The enhanced dynamic styling gives the smart fortwo a more powerful road stance. This self-assured look is further enhanced by its striking new side skirts, rear trim strip and the new rear heat shield with a honeycomb structure. Leaving other drivers wanting more.

>> The interior: looks big, feels huge.

Surprisingly spacious and very inviting. The new, optional interior material package in crystal grey transforms the entire interior into a feel-good zone. The seats and door trim boast a high-quality colour and material composition in a mix of crystal grey leather and fabric. The kneepad comes in leather-effect crystal grey and the instrument panel in leather-effect black. A veritable highlight in this class is the contrasting double stitching on all elements.

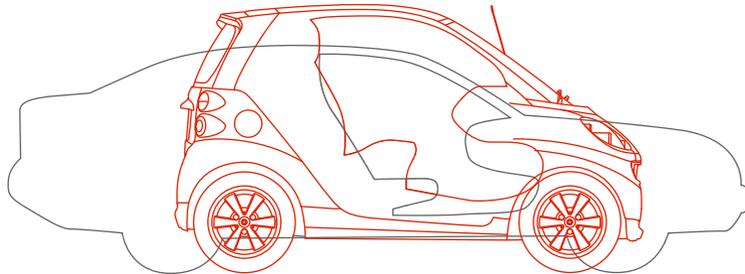

>> Small outside, big inside.

The space concept.

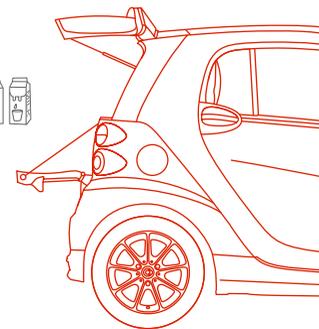

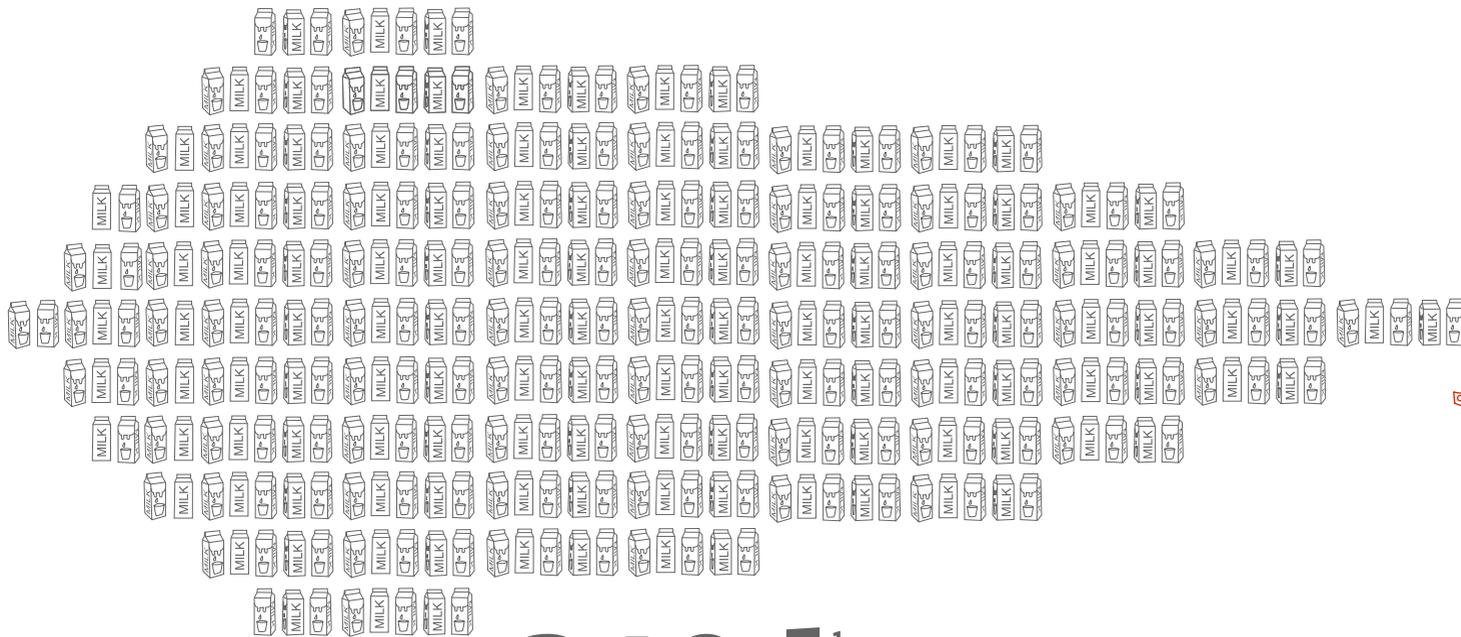

Spaciously smart. With its large cab-forward windscreen and the upright seating position, the smart fortwo interior offers the same feeling of spaciousness as a minivan. Meaning that even taller smart enthusiasts will enjoy the same level of comfort. The raised seating position gives you excellent all-round vision, even in the heaviest traffic. And with a length of 2.69 m the smart fortwo fits into every parking space.

This means no more endless searching for parking spaces – you simply park, giving you more time for other things. For example, an extended shopping spree. Stow your purchases away in the practical full-size luggage compartment – with a capacity of 340 litres¹ there's plenty of space.

2.69 m

340 l¹

¹Up to roof; according to standard DIN 70020-1.

>> Less is more.

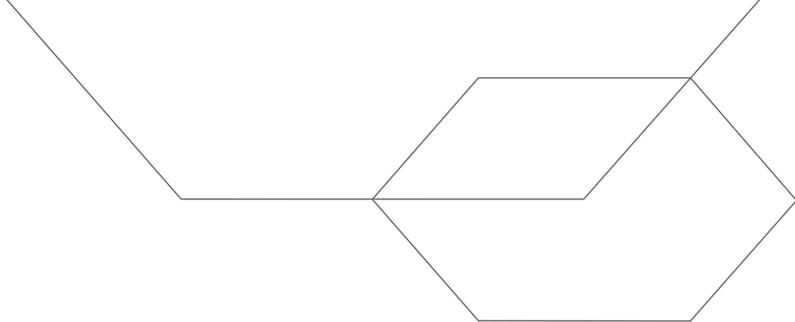

The engines.

You can choose between four engines, all of which are perfectly tailored to the smart fortwo and city traffic. They all offer lots of driving fun and low fuel consumption. All smart engines comply with the strict EU5 standard and emit less than 120 g of CO₂ per km¹. In fact, 80% of all new smart fortwo models worldwide emit less than 100 g/km (combined cycle, softip).

smart's most efficient engine, the common-rail turbodiesel, boasts fuel consumption of just 85.6 mpg and CO₂ emissions of 86 g/km (combined cycle, softip). Whether you opt for a common-rail turbodiesel, micro hybrid drive petrol engine, turbo petrol engine or BRABUS turbo petrol engine you'll always make the right choice.

¹With standard tyres.

cdi

- > 54 bhp (40 kW)¹
- > Fuel consumption 85.6 mpg²
- > CO₂ emission 86 g/km²

Particularly economical:

The common-rail turbodiesel with diesel particulate filter is a true minimalist: low consumption, low CO₂ emissions and particularly low running costs.

mhd

- > 71 bhp (52 kW)¹
- > Fuel consumption 67.3 mpg²
- > CO₂ emission 97 g/km²

Savings as an added bonus:

Thanks to an intelligent automatic start-stop system, this powerful naturally aspirated petrol engine shuts down automatically in stop-and-go urban traffic – and back on again when it's time to move on.

turbo

- > 84 bhp (62 kW)¹
- > Fuel consumption 57.6 mpg²
- > CO₂ emission 115 g/km²

More power:

This also means more fun at the wheel for you. The smart turbo engine packs a powerful punch – but an environmentally responsible one as well.

BRABUS

- > 102 bhp (75 kW)¹
- > Fuel consumption 54.3 mpg²
- > CO₂ emission 119 g/km²

Powerhouse:

The BRABUS turbo engine boasts impressive maximum torque of 147 Nm. In conjunction with the sporty transmission configuration it accelerates from 0 to 62 mph in just 8.9 seconds.

¹In accordance with Directive 80/1269/EEC in the currently applicable version. ²Combined figure, coupé, softip (where available). The figures stated were determined in accordance with the stipulated measuring method (Directive 80/1268/EEC in its currently valid version). The figures do not refer to an individual vehicle and do not constitute part of the offer, but serve solely as a comparison between the different vehicle types.

>> Safety isn't just about size.

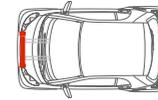

The innovative smart safety concept.

Building a car that is small, compact and comfortable is a challenge in itself. But a small car offering a level of safety that need not be shy in comparison with a large car calls for an innovative safety concept consisting of numerous individual safety elements that act together for maximum effectiveness. As part of Daimler AG, smart benefits from the extensive experience of the safety pioneer Mercedes-Benz.

The tridion safety cell: additionally reinforced with high-strength steel sheets at strategically important points – for maximum stability, rigidity and strength. The impact energy is distributed evenly over the longitudinal and transverse members and so effectively reduced.

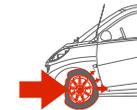

Crash boxes: steel deformation elements at the front and rear absorb the energy from minor collisions at low speeds.

High seat position: not only gives you a better view of what's happening on the road, but also protects you in the event of a collision.

Safety seats with integral seat belts and belt tensioners: the seats have a high level of mechanical stability. In a frontal impact the belt tensioners will reduce any slack.

The wheel as a deformation element: in a frontal impact the front wheel absorbs a large part of the force of impact.

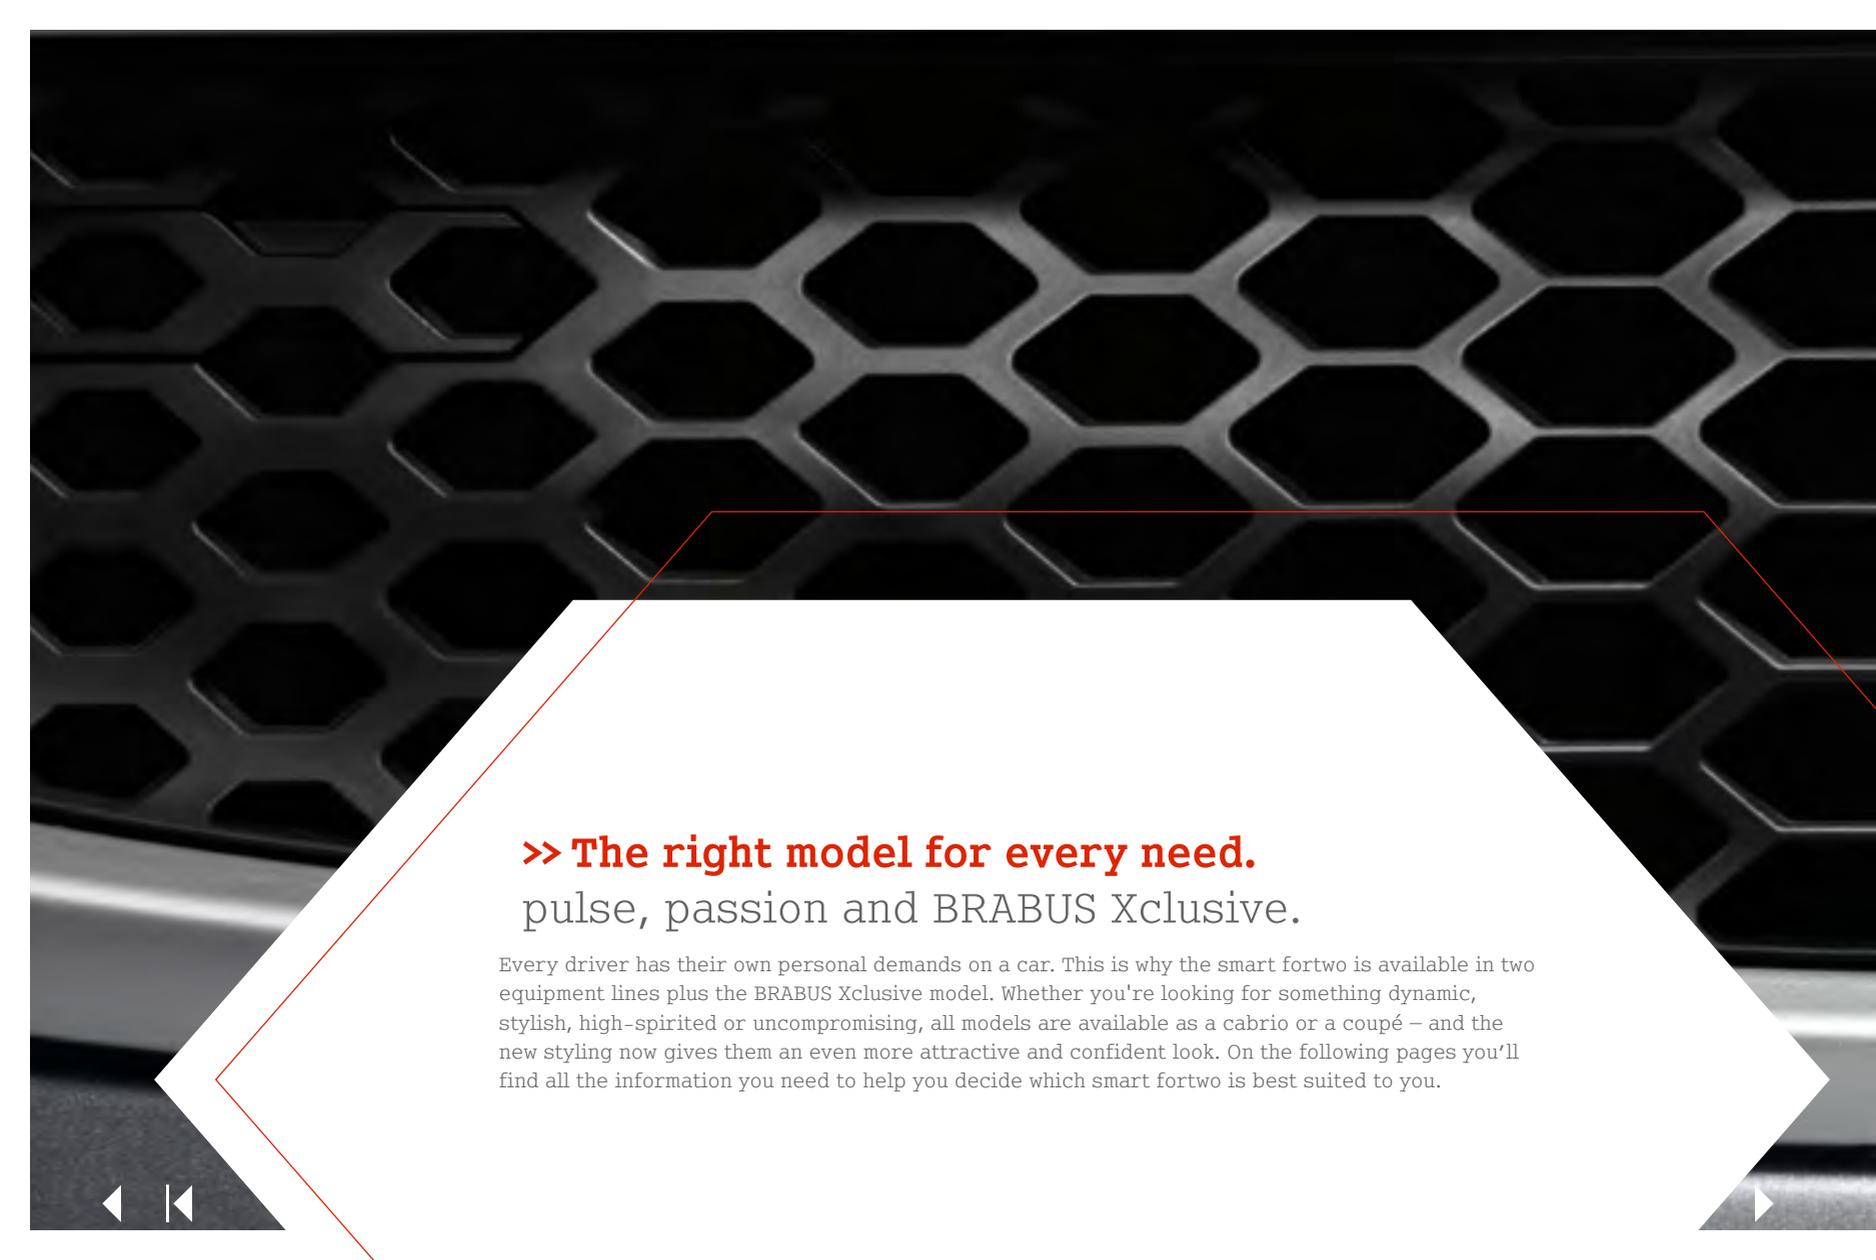

Full-size airbags and optional head/thorax side airbags: opening in a matter of milliseconds to offer driver and passenger optimal protection in the event of a front or side impact.

esp®: when the vehicle is in danger of swerving, the electronic stability programme (esp®) brakes specific individual wheels in order to prevent the car from breaking away.

abs: as part of the electronic stability programme esp®, the anti-lock braking system (abs) prevents the wheels from locking, enabling you to continue steering the smart fortwo safely whilst applying the brakes.

>> The right model for every need.

pulse, passion and BRABUS Xclusive.

Every driver has their own personal demands on a car. This is why the smart fortwo is available in two equipment lines plus the BRABUS Xclusive model. Whether you're looking for something dynamic, stylish, high-spirited or uncompromising, all models are available as a cabrio or a coupé – and the new styling now gives them an even more attractive and confident look. On the following pages you'll find all the information you need to help you decide which smart fortwo is best suited to you.

>> Dynamic response. Sporty look.

smart fortwo pulse.

Confident, lively and agile – the smart fortwo pulse is ready for urban traffic and more. And with its sporty equipment it cuts a fine figure wherever it goes. The tridion safety cell comes in black and is optionally also available in silver or white. The door mirror caps are finished in the same colour. Aprons and side skirts are painted tone-in-tone with the body panels for a consistent look whilst the radiator surround in silver provides an eye-catching contrast.

The 3-double-spoke alloy wheels with wide tyres are perfect for sporty motoring. And the softouch automatic gear programme – a standard feature – further enhances the sportiness of this model. At the touch of a button you can switch from automatic to manual shifting without the need for a clutch – either using the shift paddles on the 3-spoke leather sports steering wheel or by lightly tapping the gear lever.

>1 **Dashboard instruments:** the cockpit clock and rev counter are illuminated from the inside. They can be swivelled and lend the cockpit even more sportiness.

>2 **3-spoke leather sports steering wheel with steering wheel gear shift and leather gear knob:** for sporty gear shifting. Shift paddles on the steering wheel allow you to change gear motorsport-style. For even more driving fun.

>3 **Upholstery:** the black fabric/leather look seats give a sporty feel to the cabin. The fabric elements on the instrument panel, door trim and kneepad are colour co-ordinated in black.

>> Elegant in appearance. Comfort in abundance. smart fortwo passion.

The smart fortwo passion is perfect for stylish motoring and gives a new meaning to the words "driving style". The focus is on two things: comfort and elegance. Thanks to the softouch automatic gear programme you can leave gear shifting to the passion. Of course you can change gears manually with softip if you prefer – and the air conditioning (also standard on pulse) with dust and pollen filter will also bring you to your destination in comfort.

The tridion safety cell comes in silver and is alternatively also available in black or white. The door mirrors are finished in the same colour. Like the pulse, the body panels, aprons and side skirts of the passion are painted in a uniform colour – with the silver surround of the radiator grille as an eye-catching highlight. Classy and expressive 9-spoke alloy wheels round off the elegant appearance.

>1 Upholstery: with three fabric variants in design beige, design black or design red you can choose an interior to suit your taste. The interior contrast components and fabric elements (in the instrument panel, door trim and kneepad) are colour-coordinated with the upholstery.

>2 Panoramic roof (coupé): in break-resistant, tinted polycarbonate. Also comes with an integrated sunblind.

>3 Audio system navigation/multimedia: includes a 6.5" touchscreen display, navigation with perspective map and voice control, Bluetooth® hands-free function for your telephone, aux/USB port for your mobile music player, iPod® interface that allows you to use your iPod® on the touchscreen, CD/DVD player, picture viewer, two door speakers and many other functions.

>1 **BRABUS 102 bhp (75 kW) turbo engine:** accelerates from 0-62 mph in 8.9 seconds with torque of 147 Nm and a maximum speed of 96 mph (electronically limited).

>2 **BRABUS sports exhaust system with painted rear apron:** stylish appearance with a full sound. With two centrally positioned chrome-plated tail pipes, framed by the BRABUS rear diffuser in matt grey.

BRABUS

>> Uncompromising sportiness. smart BRABUS Xclusive.

smart through and through! Fine materials, exclusive styling and plenty of power: from the dynamic exterior to the high-quality interior and the 102 bhp (75 kW) turbo engine, the smart fortwo BRABUS Xclusive leaves nothing to be desired. The sporty transmission configuration, BRABUS sports suspension lowering the vehicle by 10 mm and the BRABUS sports exhaust system give your smart fortwo all-round sporty driving dynamics and a sporty look. The dynamic appearance is rounded off by BRABUS "Monoblock VII" alloy wheels available in silver, matt grey and gleaming black. Exclusiveness has its own style – which is why the body panels and tridion safety cell of the smart BRABUS Xclusive harmonise in classy black, gleaming silver or brilliant white.

The BRABUS front spoiler with additional air inlets painted in the body panel colour is a hallmark of the BRABUS Xclusive. H7 projection headlights with titanium-coloured surrounds give the vehicle a dynamic "face". Together with the LED daytime running lights in BRABUS Xclusive design they'll always show you in the right light.

>> At a glance.

Standard equipment of all models.

Exterior

body panels in deep black, rally red or crystal white
body panel plus package (front and rear apron and side skirts finished in the body panel colour)
door mirror caps in tridion colour
fuel filler cap finished in the body panel colour
H7 projection headlights
radiator grille and rear trim strip in silver
service flap
third brake light
white side indicators

Interior

passenger seat backrest can be folded right down for through-loading
net pockets in doors and sides of seat backrests
storage compartments on passenger side and next to steering wheel
coin holder (coupé)
dashboard instruments (cockpit clock and rev counter)
glove compartment with terminal strip (lockable)
interior lighting
storage compartment in tailgate

Comfort

air conditioning with automatic temperature control
softouch – automatic gear programme, with kickdown function
electric windows
central locking with radio remote control and immobiliser; incl. locking of filler cap
instrument cluster with multifunctional display (digital gear display with gear recommendation, fuel gauge with reserve indicator, service interval indicator, trip recorder, clock)
exterior temperature indicator with frost warning indicators with lane-changer function
comfort windscreen wipers with speed-sensitive interval wiping and automatic wipe/wash function
rear window wiper with interval wiping, automatic wipe/wash function, automatically switched on when reversing (coupé)
headlamp range adjustment (manual)
heated rear window
one-hand operation of tailgate, with electric rear window release (coupé)
rear window release (coupé) or remote roof release (cabrio) via 3-button key
12 volt socket with cover
tank cap integrated in central locking system

Safety

tridion safety cell
esp® – electronic stability programme
anti-lock braking system (abs) with electronic brake force distribution
full-size driver and passenger airbag
safety seats with integral seat belts
seat belts with belt tensioners and belt force limiters
hydraulic brake assist
crash elements at front and rear
crash sensor (auto switch-on of hazard warning lights)
drive lock – automatic door locking when driving
automatic hill start assist (on uphill slopes)

Equipment features for the different lines.

pulse

solid roof (coupé)

tridion safety cell in black, alternatively in silver or optionally in white

3-double-spoke alloy wheels (R22) 15" with wide tyres, front: 175/55 R 15; rear: 195/50 R 15

front fog lights

pulse logo in mirror triangle

upholstery: fabric/leather look; colour: black

contrast components in the colour: pearl black

fabric elements on instrument panel, door trim and kneepad; colour-coordinated with upholstery

3-spoke leather sports steering wheel with steering wheel gear shift paddles (incl. leather gear knob)

audio system, low-line (RDS radio with aux/USB and 2 speakers, incl. drawer)

passion

panoramic roof (coupé, incl. sunblind)

tridion safety cell in silver, alternatively in black or optionally in white

9-spoke alloy wheels (R25) 15" with front tyres: 155/60 R 15; rear tyres: 175/55 R 15

passion logo in mirror triangle

upholstery: fabric; colour: design black, design red or design beige

contrast components in the colour: pearl black, pearl red or pearl beige; colour-coordinated with upholstery

fabric elements on instrument panel, door trim and kneepad; colour-coordinated with upholstery

2-spoke leather steering wheel (incl. leather gear knob)

audio system navigation/multimedia highline (RDS radio with 6.5" touchscreen display, navigation, Bluetooth® hands-free system, aux/USB, iPod® interface, CD/DVD/SD, incl. 2 speakers)

luggage compartment cover (retractable incl. net bag)

The coupé variant is shown in each case. Different scope of equipment in all lines for cabrio:

Electric tritop fabric soft top in black (fully automatic) with glass rear window and roof lining, removable roof bars, storage compartment for roof bars in tailgate.

Equipment and features of the smart BRABUS Xclusive.

BRABUS Xclusive

BRABUS 102 bhp (75 kW) turbo engine with sports transmission

BRABUS "Monoblock VII" alloy wheels (16" front/17" rear) with front tyres: 175/50 R 16; rear tyres: 225/35 R 17; available in silver, gleaming black or matt grey

BRABUS sports suspension, lowering the car by 10 mm

BRABUS sports exhaust system with rear apron in the body panel colour and BRABUS rear diffuser in matt grey

BRABUS front spoiler and side skirts in the body panel colour

BRABUS front headlights, titanium coloured background

LED daytime running lights in BRABUS Xclusive design panoramic roof (coupé, incl. sunblind)

tridion safety cell and door mirror caps in black (combined with body panels in black), alternatively in silver or optionally in white (with corresponding body panel colours)

radiator grille in silver

BRABUS logo on front, rear and on filler cap, Xclusive logo in mirror triangle

BRABUS heated leather seats¹, silver stitching, BRABUS logo embossed in headrests

interior contrast components in aluminium look

BRABUS instrument panel and door trim in leather look

BRABUS gear knob in leather/aluminium

BRABUS handbrake handle in aluminium

BRABUS sports pedals in stainless steel with rubber studs

BRABUS velour floor mats

BRABUS 3-spoke leather sports steering wheel with steering wheel gear shift paddles

BRABUS dashboard instruments (cockpit clock & rev counter)

audio system navigation/multimedia highline (RDS radio with 6.5" touchscreen display, navigation, Bluetooth® hands-free system, aux/USB, iPod® interface, CD/DVD/SD, incl. 2 speakers)

head/thorax side airbags

luggage compartment cover (retractable incl. net bag)

The coupé variant is shown. Different scope of equipment in all lines for cabrio:

Electric tritop fabric soft top in black (fully automatic) with glass rear window and roof lining, removable roof bars, storage compartment for roof bars in tailgate.

¹Imitation leather on the seat bottom and in the top area of the rear of the backrest.

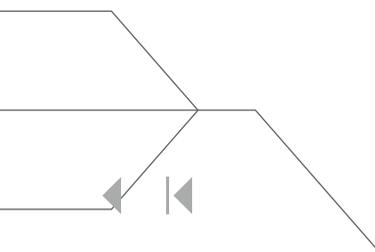

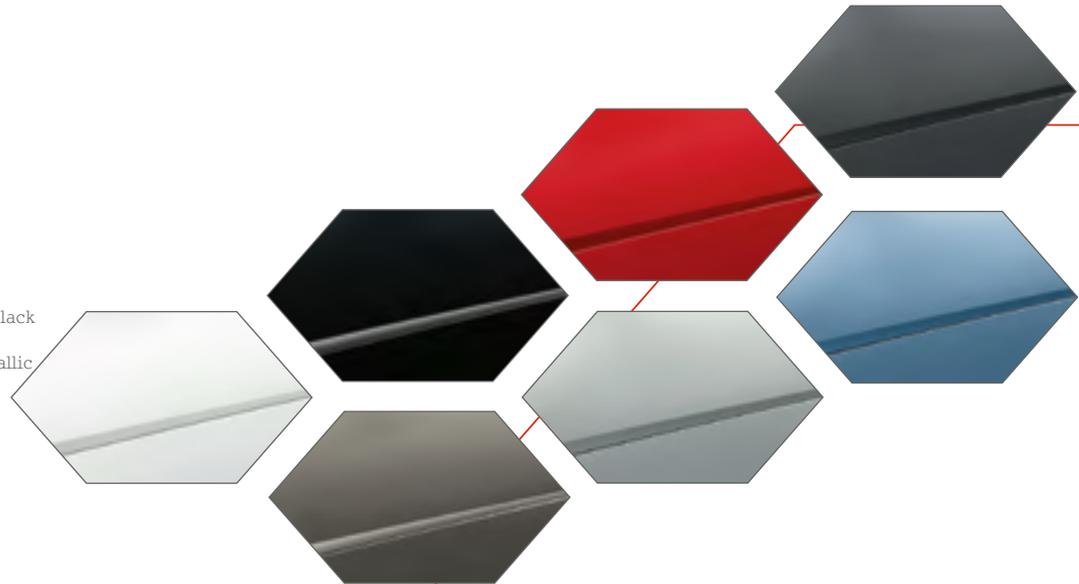

>> A car designed for connoisseurs. Just like you.

The colours.

With a wide range of colours to choose from, you can make your smart fortwo every bit as individual as you are. The body panels are available in seven different colours. The typical smart bicolour look is created by the contrasting paintwork of the tridion safety cell. Here, you have a choice of three colours. A total of nine soft top colours are available for the smart fortwo cabrio – three from the smart range and a further six from the smart BRABUS tailor made programme. With the smart fortwo, you really are what you drive.

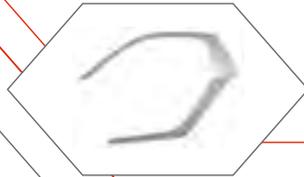

The body panels: in crystal white, deep black or rally red – with matt anthracite, grey metallic, silver metallic or light blue metallic also available as options.

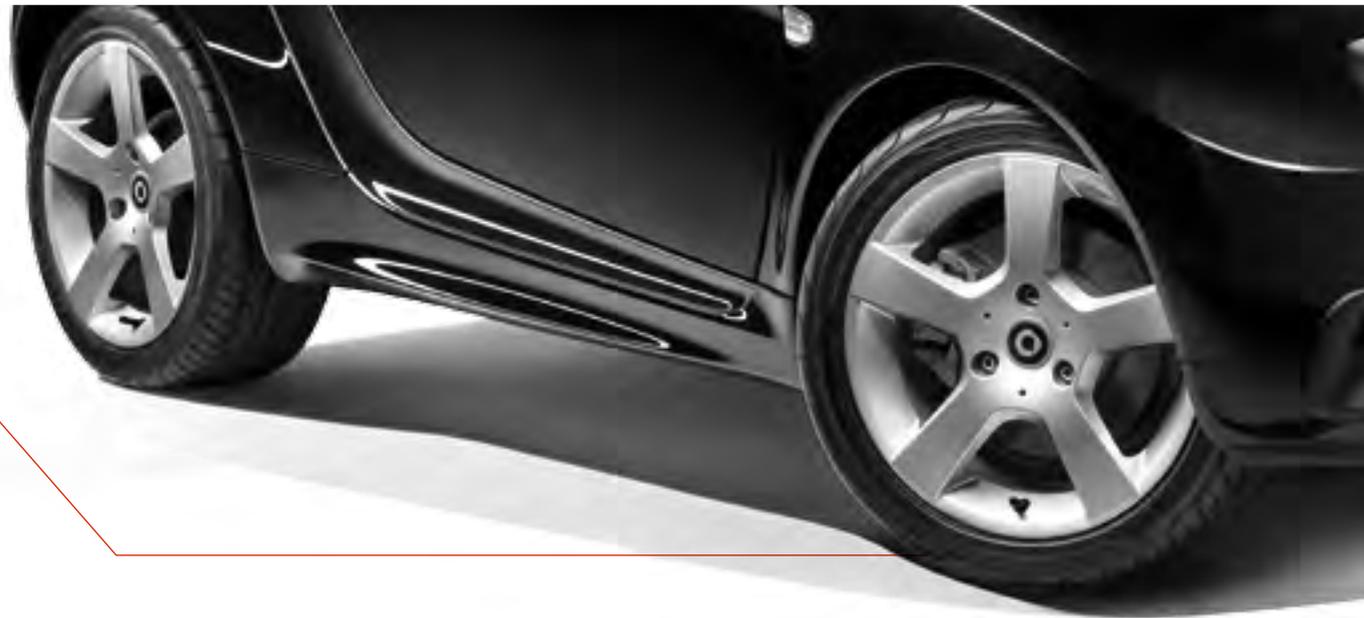

Soft top colours from smart: tritop soft top available in black, or optionally in red or blue (denim-look).

Soft top colours from the BRABUS tailor made programme: for those who are looking for that extra something, the tritop fabric soft top is now also available in grey, green, blue, java, beige or brown.

The tridion safety cell: available in silver or black, or optionally in white. With matching door mirror caps.

>> A sporty look for sporty customers.

A selection from the range of new optional equipment.

The new optional sports package¹ guarantees an all-round sporty look. As well as attractive 5-spoke alloy wheels with wide tyres (175/50 R 16 at the front and 215/40 R 16 at the rear), the package includes electric power steering and the BRABUS sports suspension, which is lowered by 10 mm. Those who prefer to go their own way will love the three alloy wheel options (in 12-spoke, 3-spoke or 3-double-spoke design) and the optional LED daytime running lights.

¹Available for 84 bhp turbo only.

>1

Optional equipment packages.

smart and smart BRABUS offer lots of different equipment options - and to help you decide we have put together themed value-for-money packages for more information, more sound, more comfort or more sportiness.

>1 Audio system navigation/multimedia¹: the multimedia system has a 6.5" touchscreen display, navigation with perspective map display and voice control, Bluetooth® hands-free function for your telephone, aux/USB port for your mobile music player, iPod® interface that allows you to use your iPod® on the touchscreen, CD/DVD player, picture viewer, two door speakers and many other functions.

Functions: >2 Radio, >3 CD/DVD player, >4 Navigation.

>> See what you can hear.
Audio & sound options.

>5 Surround sound system: for a whole new full-sound experience. With subwoofer, 8-channel digital amplifier and perfectly matched tweeters, mid-range speakers and rear-fill speakers, your favourite songs have never sounded so good! Compatible with all smart radios.

>6 smart sound system: compatible with all smart radios. Two tweeters, two mid-range speakers and a subwoofer join forces to deliver really full sound.

¹Optional on pulse models.

>> The best seats are reserved for you.

To really get to know a car like the smart fortwo, you need to experience it for yourself. And the best way to do that is to take a test drive. Visit your local smart Retailer and take a seat in the smart fortwo. Your Retailer will be pleased to advise you in the choice of your own personal smart fortwo and will help you choose an engine, colour and equipment variant. And of course your Retailer will also be pleased to answer all your questions on financing, leasing and services. Your smart Retailer – we're there to help you.

We are pleased to take back your smart for environmentally friendly disposal in accordance with the European Union (EU) Directive on End-of-Life Vehicles – but that day lies a long way off. To make it as easy as possible for you to return the vehicle, a network of companies exists which will take back your old car and dismantle and recycle it. You can return your vehicle to one of these companies free of charge. In this way you make a valuable contribution to closing the recycling loop and to saving resources. Further information on recycling end-of-life vehicles and the conditions of return is available at www.thesmart.co.uk.

Regarding the information in this publication: changes to the product may have been made after going to press on 31 May 2012. The manufacturer reserves the right to effect structural or design modifications, colour changes and changes to the scope of delivery during the delivery period, insofar as such changes or modifications are reasonable for the buyer in due consideration of the seller's interests. Should the seller or the manufacturer employ codes or numbers to describe the order or object ordered, this alone shall not constitute a valid basis for the derivation of any rights. The photographs may include accessories or options that are not part of the standard scope of delivery. Any colour deviations result from the printing process. This publication may also contain variants and services that are not available in individual countries. Information on statutory, legal and fiscal provisions and their consequences apply only to the Federal Republic of Germany at the time that this publication goes to press. Please refer any questions on the provisions that currently apply in other countries and their effects to your smart sales representative.
