» New energy for the city. smart EQ fortwo and forfour.

smart has always been more than an ultra-compact car with a small turning circle. It also embodies an aspiration to improve life in the city with courage, ideas and innovations. The new smart EQ fortwo and forfour sees us taking this concept one step further. As the only vehicle manufacturer to electrify its complete model range, including the world's only electric cabrio. With intelligent connected car technologies and innovative, digital services. And with the special added pleasure of driving an electric car. Welcome to the electric world of smart.

» smart EQ fortwo and forfour.

¹Up to 8 years or 62,000 miles. Please refer to the service booklet for the precise conditions (battery certificate).

²A different first year rate of Vehicle Excise Duty (Road Fund Licence) applies for new cars. Please refer to page 33 for the relevant rate for the second and subsequent years.

³Recommended on-the-road price: these prices reflect the Road Fund Licence applicable to the standard model plus £355 additional costs necessary to put your car on the road.

Included are a standard UK delivery charge (£275 incl. VAT), new vehicle registration fee (£55) and number plates (£25 incl. VAT). VAT is calculated at the standard rate of 20%.

Prices and specifications are subject to change without prior notice.

⁴Price includes £4,500 government grant discount. This grant is provided by the UK Government's Office for Low Emission Vehicles (OLEV) and as such is subject to change or removal in future depending on Government policy.

⁵Expected May 2018 Production. Mode 2 cable is not available from launch of 22 kW: Mode 3 cable only will be supplied.

- › Rear view camera

» » smart EQ control app¹.

Expected to be available from Q3 2018.

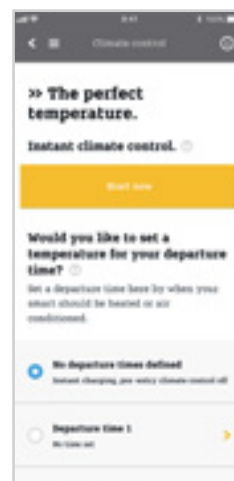

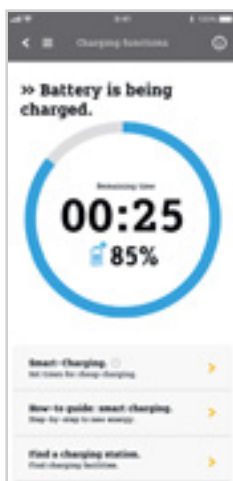

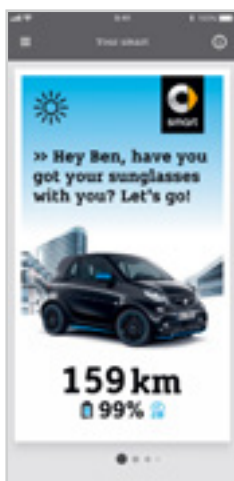

However full the battery is, you can always keep a clear head. If you drive a new smart EQ fortwo or forfour, you automatically have access to the smart EQ control app. This enables you to call up important information about all aspects of your smart at any time and provides you with a simple means of controlling many vehicle functions via your smartphone.

Retrieving information on the vehicle's status. Charge level of the high-voltage battery, current range or the efficiency of your driving style: all key information is available to you any time, anywhere.

Monitoring and controlling the charging process. From remaining charge time to charging capacity: keep tabs on the charging process, too. This is also where you go to activate smart charging², for example, in order to benefit from cheaper night-time electricity tariffs.

Controlling vehicle functions. Here you can start pre-entry climate control² for your smart as and when you wish, for example, and get your vehicle fully prepared for your journey before you move off.

¹Includes three years of use from activation, individually extendable thereafter.
²In conjunction with the standard equipment, the service scope is limited to the "immediate pre-entry climate control" function.

» Optional equipment. Equipment packages.

» Colour combination recommendations.

For a harmonious look, select the colour of the radiator trim tone-in-tone with the bodypanels/body. If you choose a different bodypanel/body colour, coordinate the colour of the radiator trim with the colour of the tridion safety cell. This way, everyone is sure to find a suitable look – from elegant to extravagant.

¹In accordance with Directive ECE R85 in its currently valid version.

²New European Driving Cycle. The figures shown were obtained in accordance with the prescribed measuring process (Sec. 2, Nos. 5, 6, 6a of the German Ordinance on Fuel Consumption Labelling for Cars [Pkw-EnVKV] in the applicable version). The figures are not based on an individual vehicle. They are provided solely for the purpose of comparing different vehicle models. It is common that differences occur in real driving conditions compared with these certified laboratory values.

³Depending on the local electricity infrastructure and the charging current set on the charging cable.

⁴Wallbox optionally available.

⁵The figures stated were determined in accordance with the stipulated measuring method in accordance with EC Directive 715/2007 in the currently applicable version.

⁶Up to roof in accordance with standard DIN 70020–1.

⁷Figures in accordance with Directive 92/21/EC in the version 95/48/EC (mass in running order, with driver, 68 kg and luggage, 7 kg) for vehicles with standard equipment. Optional equipment and accessories generally increase this figure, which means that the payload is reduced accordingly.

*The manufacturer's stated fuel consumption figures are based on the legally prescribed NEDC test cycle, which is performed in a laboratory. These are the only figures we are allowed to publish. It is common that differences occur in real driving conditions compared with these certified laboratory values. They result primarily from conditions different from the legally-prescribed laboratory conditions, for example when ambient temperatures differ (the weather is hot, cold, windy, wet), the vehicle is operated under different loads and many other factors.

For several years, Mercedes-Benz has fully and actively supported the early introduction of the WLTP (Worldwide Harmonised Light Vehicles Test Procedure) and the measuring procedure for Real Driving Emissions (RDE). This procedure is designed to supersede the NEDC, with the goal of bringing standardised and real-world consumption closer together.

» Finance.

Why finance with us?

We believe a great driving experience should be matched by an equally great ownership experience. That is why we put just as much thought, time and effort into designing our finance options, our service plans and our insurance cover as we do into our vehicles.

We are not in the business of simply providing a loan to fund the purchase of your dream vehicle. We look on it as a journey that we take with you, from the moment you choose your new smart, to helping you in choosing your next one.

If you would like to find out more about any of our current offers, simply call into your local smart Retailer where one of our Business Managers will be more than happy to talk you through anything you need to know.

Helping you find the right solution.

You should find our finance packages are more convenient than a traditional personal loan because:

- Funds are immediately available – no waiting for cheques or loans to clear.
- We have clear and transparent rates – the APR we quote is the APR you get.
- We have friendly Business Managers – experts in vehicle finance who can talk you through all of your plans in detail.

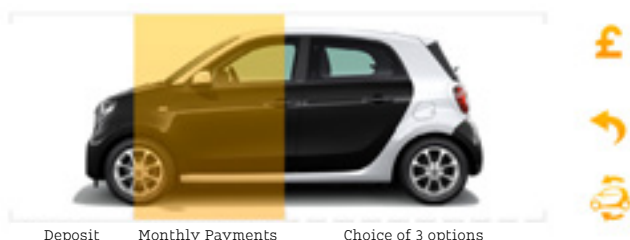

If you would like to find out more about any of our current offers, simply call into your local smart Retailer where one of our Business Managers will be more than happy to talk you through anything you need to know.

One of our most popular finance products is Agility (our Personal Contract Purchase product). We also offer Contract Hire, Operating Lease and Hire Purchase solutions. If you would like to find out more about these speak to your Retailer or visit uk.smart.com/fandi.

Agility (our PCP product).

At the start of an Agility agreement, you put down a deposit and decide the term of your agreement and your annual mileage. You will be advised of the Guaranteed Future Value, which offers you the reassurance of knowing exactly what you will need to pay to own the vehicle outright in the future (this is known as the Optional Purchase Payment).

Throughout your agreement you simply pay your agreed monthly payments and when the agreement comes to an end you either purchase, hand back or part-exchange your vehicle.

» Insurance.

Motor Insurance by smart.

Superb cover comes as standard, so who better to insure your car than Insurance by smart?

Features include:

- 24-hour, seven-days-a-week UK accident recovery to your nearest smart-approved repairer.
- Unlimited cover for manufacturer-specification in-car audio and telecommunications equipment fitted by the factory or Retailer.
- If your smart is stolen or subject to total loss then a courtesy car will be provided for up to 14 days or until the settlement cheque is received, depending on which is sooner.
- 180 days' cover as standard for temporary visits to most of mainland Europe (up to 3 months in one trip).
- New car replacement within the first 12 months for the original owner if your smart is a total loss.

» Warranty and servicing.

smart road assistance.

With smart road assistance you can rest easy knowing your smart is in good hands in case of accident, breakdown, minor mishap, or vandalism. If your smart encounters trouble, you'll be able to get back on your way with smart road assistance thanks to benefits such as breakdown repair and towing, hotel accommodation and a replacement car.

All smarts registered in the UK on or after 01/11/2014, will benefit from smart road assistance for three years. After this, your smart road assistance will be automatically renewed for a year every time your smart goes in for an official smart service for up to 30 years.

Full flexibility. Not just in road traffic.

The new manufacturer's warranty without mileage restrictions from smart offers you a comprehensive scope of protection. We also offer smart Service Care, which is a service plan designed to take care of your servicing costs for the next two or three services. smart Service Care is a great way of keeping your smart in the best shape at a Retailer whilst keeping the costs as transparent as possible.

Warranty.

3 year warranty on new cars without mileage restrictions, for complete peace of mind.
Corrosion cover warranty is 12 years on new cars.

Battery warranty.

Up to 8 years or 62,500 miles. Please refer to the service booklet for precise conditions (battery certificate).

smart Service Care.

With smart Service Care from £15.00 per month, it's easy to enjoy more flexible and affordable car servicing at your local smart Retailer.

Because Service Care guarantees the price of parts and labour for up to three services and cleverly protects you against any further inflationary rises, the price will never go up.

2 services		3 services		
12 months	24 months	12 months	24 months	36 months
£30.00	£15.00	£45.00	£22.50	£15.00

But that's not all.

You'll have a choice of easy ways to pay as well. You can either add your servicing costs to your monthly budget from £15.00, or pay all your servicing costs in one lump sum. Either way, you can relax knowing it's taken care of in the best way for you.

- Service Care guarantees the price you pay today is the price for the next two or three services, so what you pay won't go up even if inflation does.
- Monthly costs from £15.00 make it easier for you to budget because you can spread the cost of servicing.
- You'll be adding an official stamp to your service history. So when it comes to selling your pride and joy on, future owners can look for the manufacturers' seal of approval when they buy.
- You'll have the satisfaction of knowing that your car will be serviced by specially trained technicians, using the latest diagnostic equipment and smart GenuineParts.
- Fully transferable to a new owner if you sell your smart, providing the plan is paid for in one lump sum.

» Vehicle Excise Duty. Road Fund Licence.

All road vehicle registrations are subject to Vehicle Excise Duty (Road Fund Licence), which varies in accordance with the vehicle's CO₂ emissions. A first year rate for each taxation band will apply. The table below shows the bands (A–M) created by the DVLA and the corresponding Road Fund Licence. CO₂ emissions are listed in the technical data on page 30 and the relevant Excise Duty is reflected in the on-the-road prices on page 10.

Band	CO ₂ emissions	First year rate (£)	First year rate diesel (£)	Standard rate (£)	Premium rate (£) ¹
A	0 g/km	0.00	0.00	0.00	310.00
B	1 to 50 g/km	10.00	25.00	140.00	450.00
C	51 to 75 g/km	25.00	105.00	140.00	450.00
D	76 to 90 g/km	105.00	125.00	140.00	450.00
E	91 to 100 g/km	125.00	145.00	140.00	450.00
F	101 to 110 g/km	145.00	165.00	140.00	450.00
G	111 to 130 g/km	165.00	205.00	140.00	450.00
H	131 to 150 g/km	205.00	515.00	140.00	450.00
I	151 to 170 g/km	515.00	830.00	140.00	450.00
J	171 to 190 g/km	830.00	1,240.00	140.00	450.00
K	191 to 225 g/km	1,240.00	1,760.00	140.00	450.00
L	226 to 255 g/km	1,760.00	2,070.00	140.00	450.00
M	over 255 g/km	2,070.00	2,070.00	140.00	450.00

¹Premium rate only applicable to vehicles where the list price is over £40,000 including any factory-fitted options, standard UK delivery charge, number plates, fuel and VAT.

» » **Chargemaster Homecharge.** Simple steps to effortless charging.

When you purchase a smart plug-in vehicle we recommend Chargemaster, our preferred charging partner. The 7 kW Chargemaster Homecharge allows you to charge your smart EQ fortwo or forfour from 20–100% in 2.5 hours.¹

Key benefits of the 7 kW Chargemaster Homecharge:

- 3× faster than a 13 A plug.¹
- Ergonomic styling, robust and weatherproof, for indoor or outdoor use.
- Designed for users with a domestic address and off-street parking.
- Available with £500 OLEV Electric Vehicle Homecharge Scheme (EVHS) Grant (for eligible customers only)².
- POLAR plus network card providing access to the UK's largest public charging infrastructure, with over 5,000 charging points.
- Three year product warranty included.

Simple steps to Chargemaster Homecharge:

- Fill in the application form at www.chargemasterplc.com
- Chargemaster will contact you to discuss your household electrics and arrange for specialist installation within two weeks.

For further information please contact: mercedes-benz@chargemasterplc.com or call **01582 399 412**.

Homecharge 7 kW: £354 *incl. VAT & installation

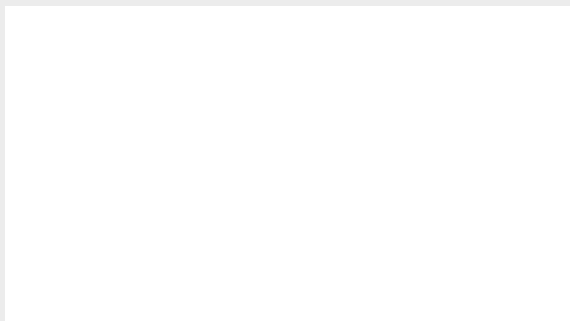

Chargemaster is the UK's leading provider of domestic charging solutions, trusted by more than 50,000 users across the UK and Europe. Manufactured in the UK, Chargemaster offers a wide range of installation services, choice of power output, and flexible data and security options to suit your requirements.

¹Based on 7 kW power output for the smart EQ forfour, fortwo coupé and cabrio.

²The Chargemaster Homecharge £500 Grant (including VAT) is only available to customers who meet the criteria of the Office of Low Emission Vehicles (OLEV) and is provided and installed by Chargemaster plc. For full details and eligibility criteria for the OLEV EVHS Grant, see <https://www.gov.uk/government/publications/electric-vehicle-homecharge-scheme-guidance-for-customers-version-21>. For full Chargemaster Homecharge Terms & Conditions visit https://chargemasterplc.com/terms_conditions

*Price includes £500 OLEV EVHS Grant. Price correct at time of publication, subject to change.
